Aviva Investors International Index Tracking Fund, Class 2, Accumulation shares, GBP, a sub-fund of the Aviva Investors Investment Funds ICVC (ISIN: GB00B2NRNX53). The Fund is managed by Aviva Investors UK Fund Services Limited.

OBJECTIVES AND INVESTMENT POLICY

Objective: The Fund aims to track the performance of the FTSE® World (ex UK) index (before charges and taxes). Any returns will be a combination of capital growth and income.

Core investment: The Fund will invest directly into shares of companies that make up the FTSE® World (ex UK) Index (the "Index").

Other investments: The Fund may also invest in other funds (including funds managed by Aviva Investors companies), cash and deposits.

Derivatives, such as futures may be used from time to time to gain a particular market exposure which would otherwise be difficult or costly to achieve, or to manage the Fund's cash flows in a cost-effective manner. This type of derivative usage is called "efficient portfolio management".

Strategy: The Fund will aim to track the Index by investing in international companies that make up the Index, or a sample of them which are representative of the Index, with the aim of mirroring the performance of the Index. The Fund has limited exclusions based on Aviva Investors' UK Responsible Investment policy. Further information on the Aviva Investors UK Responsible Investment policy is available on our website and in the prospectus.

Performance & Risk Measurement: The Fund's performance is measured against the Index over any given 12-month period, because the Fund intends to track the performance of the Index.

The Fund may not hold every company in the Index, and may have some investments in non-benchmark holdings.

The Fund uses a "tracking error" to measure the consistency between the Fund's returns and the returns of the Index. In general, the lower the tracking error, the more consistent the Fund's returns are relative to the Index, and vice-versa.

The Fund has a yearly tracking error target of 0% per annum (excluding charges). In normal market conditions the anticipated level of tracking error will be within 0.30% (excluding charges) of the Index.

Factors which are likely to affect the ability of the Fund to track the performance of the Index might include transaction costs (from Index and Fund turnover and dividend reinvestment), portfolio weightings not being exactly

the same as the Index, residual cash holdings, or other related factors such as efficient portfolio management, illiquid components, and any trading restrictions that may be in place.

The Index comprises large and medium-sized companies of developed and emerging markets excluding the UK, providing a broad coverage of global markets.

Note: FTSE® is a trade mark of the London Stock Exchange Group companies and is used by FTSE under licence. All rights in any FTSE index (the "Index") vest in FTSE International Limited ("FTSE"). Aviva Investors International Index Tracking Fund has been developed solely by Aviva Investors UK Fund Services Limited. Any FTSE Index is calculated by FTSE or its agent. FTSE and its licensors are not connected to and do not sponsor, advise, recommend, endorse or promote the Funds which refer to a FTSE Index and do not accept any liability whatsoever to any person arising out of (a) the use of, reliance on or any error in the Index or (b) investment in or operation of the relevant Funds. FTSE makes no claim, prediction, warranty or representation either as to the results to be obtained from the relevant Funds or the suitability of the Index for the purpose to which it is being put by Aviva Investors UK Fund Services Limited.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Other information: You can buy and sell shares on any London business day.

This is an accumulation share class and any income from the Fund will remain in the Fund and is reflected in the share price.

RISK AND REWARD PROFILE

Lower risk

Typically lower rewards

Higher risk

Typically higher rewards

This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean 'risk free'.

The value of investments and the income from them will change over time.

The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.

The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.

Currency risk: Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly, significantly and unpredictably.

Equities Risk: Equities can lose value rapidly, can remain at low prices indefinitely, and generally involve higher risks — especially market risk — than bonds or money market instruments. Bankruptcy or other financial restructuring can cause the issuer's equities to lose most or all of their value.

Hedging risk: Any measures taken to offset specific risks will generate costs (which reduce performance), could work imperfectly or not at all, and if they do work will reduce opportunities for gain.

Full information on the risks applicable to the Fund is detailed in the Prospectus.

CHARGES

One-off charges taken before or after you invest

Entry charge None

Exit charge None

Charges taken from the Fund over a year

Ongoing charges 0.25%

Charges taken from the Fund under certain specific conditions

Performance fee None

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

The ongoing charges figure is based on last year's expenses for the year ending 15 October 2023. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges please see the charges sections of the Fund's Prospectus.

PAST PERFORMANCE

Past performance is no guide to future performance.

The past performance shown in the chart opposite takes into account all charges except entry charges.

If the Fund is managed against a benchmark, its return is also shown.

The Share Class was launched on 01 November 1998.

Performance is calculated in the Share Class currency which is GBP.
