

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Unless otherwise defined in this document, all words and expressions defined in the Fund's current Prospectus shall have the same meaning herein.

## GAM Continental European Equity

hereafter the "Fund", a sub-fund of GAM Funds.

**Institutional GBP accumulation - GBP** (the "Share Class") **ISIN: GB00BYQJ5J24**

**ACD: GAM Sterling Management Limited** part of GAM Group AG.

### Objectives and investment policy

- The aim of the Fund is to provide long-term capital appreciation.
- The Fund seeks to achieve this objective through investing at least two thirds of its assets in shares and equity related securities (such as warrants) of companies listed on or dealt in Eligible Markets within the European Union which are issued by companies which are headquartered in the European Union.
- The fund manager will select investments using a fundamental, bottom-up investment approach.
- Company fundamentals will be considered in determining the allocation of investments in order to achieve the Fund's investment objective.
- The Fund is considered to be actively managed in reference to MSCI Europe ex UK Net in class currency (the "Benchmark") by virtue of the fact that it uses the Benchmark in the appropriate currency for performance comparison purposes. However, the Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmark.
- Shares in the Fund can be bought and sold daily (every Business Day of the Fund).
- Investments in certain directly held investments, including shares and corporate bonds, will be made subject to the ACD's Sustainability Exclusion Policy, details of which are available on the ACD's website at <https://www.gam.com/en/corporate-responsibility/responsible-investing>.
- Any income arising from this Share Class will be accumulated. Other share classes of the Fund may distribute income.
- The fund manager has discretion in managing the investments of the Fund.
- The Fund may use simple derivatives and investments in collective investment schemes for investment purposes and/or efficient portfolio management purposes. Further information on the Fund's use of derivatives and investment collective schemes can be found within the Investment Objective and Policies section within the Fund's Prospectus. Although the use of derivatives may give rise to an additional exposure any such additional exposure will not exceed the Fund's Net Asset Value.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within five years.

### Risk and reward profile

The risk indicator is based on the volatility of the Fund's performance over the last 5 years. Where 5 years' performance history is not available the data is supplemented by proxy fund, benchmark data or a simulated historical series as appropriate.

- The Fund is assigned to the above category based on its historical fluctuations in value.
- The indicator helps investors to have a better understanding of the potential gains and losses related with the Fund. In this context, even the lowest category does not represent a risk-free investment.
- This profile is determined using historical data, as such may not be a reliable indication for the future risk profile. It is not guaranteed and may shift over time.
- This allocation to a risk category may change over time because the future performance of the Fund may fluctuate differently from in the past.
- The Fund does not offer the investor a guaranteed return. Nor does it guarantee the fixed repayment of the money invested in the Fund by the investor.

Further risks that may have a significant effect on the net asset value of the Fund include:

- **Capital at Risk:** all financial investments involve an element of risk. Therefore, the value of the investment and the income from it will vary and the initial investment amount cannot be guaranteed
- **Equity:** investments in equities (directly or indirectly via derivatives) may be subject to significant fluctuations in value.

The "Investment Objectives and Policy" section of the Prospectus for this Fund give you more details about all the risks for the Fund – see under "Practical Information" for how to obtain a copy.

## Charges

The charges you pay are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
Switching charge	3.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.79%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry, exit and switching charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** in relation to this Share Class have been capped at 0.86% and include the ongoing charges of the underlying funds. This figure may vary from year to year. This figure excludes bank interest, portfolio transaction costs and any performance fees if applicable. The ACD expects that as the Fund grows in size, the ongoing charges cap above will cease to be required as the Fund's ongoing charges will reduce to an amount below that cap.

You may be charged a **dilution levy** of up to 1% of the value of the Shares (representing the cost of buying or selling investments) on entry to or exit from the Fund.

**For more information about charges, please see the “Fees and Expenses” section of the Prospectus which is available at [www.gam.com](http://www.gam.com)**

## Past performance

- Please note that past performance is not necessarily a guide to the future performance of the Fund.
- The data is net of tax and charges and is exclusive of subscription and redemption fees, as any subscription and redemption fees are not received by the Fund.
- Activation year of the share class: 2017
- Past performance has been calculated in GBP and relates to the Share Class.
