M&G UK Income Distribution Fund

a sub-fund of M&G Investment Funds (2)
Sterling Class R – Income shares ISIN no. GB00B75HWH59
Managed by M&G Securities Limited

Objective and investment policy

Objective:
The fund aims to provide:
• an annual yield higher than that of the FTSE All-Share Index;
• an income stream that increases every year; and
• a combination of capital growth and income, net of the Ongoing Charge Figure, that is higher than that of the composite index over any five-year period.
The composite index is 70% FTSE All-Share Index and 30% FTSE Actuaries UK Conventional Gilts All Stocks Index.
Core investment: At least 70% of the fund is invested directly in the shares of companies across any sector and of any size that are based, listed or do most of their business, in the UK.
Other investments: The fund may also invest in sterling-denominated investment grade bonds and in the shares of non-UK companies, other funds (including funds managed by M&G), cash or assets that can be turned into cash quickly.
Derivatives usage: To reduce risk and costs.
Strategy in brief: The fund manager selects stocks using a bottom-up approach across a range of sectors. A long-term perspective is adopted when identifying companies that exhibit strong business operations, good cashflows and attractive dividend growth prospects. Although the fund's focus gives it a bias towards areas of the market that typically offer a high income, it aims to be broadly spread across a variety of businesses. Investment in bonds is usually for the purposes of reducing the volatility of the fund, whilst providing a stable source of income.
Benchmarks:

- Yield: FTSE All-Share Index
  • Total return: 70% FTSE All-Share Index and 30% FTSE Actuaries UK Conventional Gilts All Stocks Index
  The benchmarks are targets which the fund seeks to outperform, and have been chosen as they best reflect the scope of the fund's investment policy. The benchmarks are used solely to measure the fund's performance and do not constrain the fund's portfolio construction.
  The fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the fund. The fund's holdings may deviate significantly from the constituents of the benchmarks.
  The total return benchmark is shown in the share class currency.

Additional information can be found on the M&G website, including:
• a glossary providing an explanation of some terms used in this document.
• the Prospectus including the fund's objective and investment policy.

Other information
You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund may be paid out to you quarterly.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Low risk — High risk

Typically lower rewards — Typically higher rewards

1	2	3	4	**5**	6	7

- The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 5 because its Net Asset Value has shown medium to high rises and falls in value historically.
- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.98%
Charges taken from the fund under certain specific conditions	
Performance fee	None

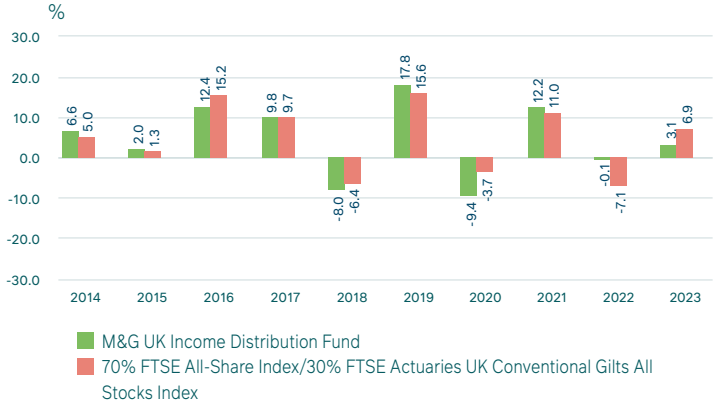

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 November 2023. This figure may change from year to year. It excludes portfolio transaction costs. This figure includes extraordinary expenses and underlying charges for closed-ended-funds, such as investment trusts and Real Estate investment trusts.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
- Performance calculation includes UK taxes. It does not take into account the entry and exit charges but does take into account the ongoing charge and the Performance fee, as shown in the charges section.
- The fund launched on 19 November 1973 and the Sterling Class R Income share class launched on 03 August 2012.
- Performance is calculated using Sterling Class R Income shares.
- Benchmark performance has been calculated in GBP.
- Information about the fund yield and income related aims can be found in the latest annual or interim Investment Report and Financial Statements.
