

# Non-UCITS Retail Scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**abrdn MyFolio Sustainable II Fund, a Sterling denominated sub fund of the abrdn OEIC III, Platform P Fixed Acc Shares (ISIN: GB00BN4R6103).**  
This fund is managed by abrdn Fund Managers Limited.

## OBJECTIVES AND INVESTMENT POLICY

### Investment Objective

To generate growth over the long term (5 years or more) while being managed to a defined level of risk. The fund is part of the abrdn MyFolio Sustainable range, which offers five funds with different expected combinations of investment risk and return that follow the abrdn MyFolio Sustainable Investment Approach. The fund is risk level II, which aims to be the second lowest risk fund in this range.

**Risk Target:** The defined level of risk referred to above that the management team is targeting is within the range of 35-55% of world stock markets (represented by the MSCI AC World Index) over 10 years. There is no certainty or promise that this target will be achieved. The Risk Target has been chosen as it represents a risk range which is appropriate for the fund.

**Performance Comparator:** For comparison purposes, investors can compare the fund's long term performance to a basket of assets (before charges) with a risk profile at the lower range of the Risk Target stated above (i.e. 35% of world stock markets), which is considered appropriate given the investment policy and Risk Target of the fund. This basket is composed of 35% MSCI AC World Index and 65% SONIA Index.

### Investment Policy Portfolio Securities

- The fund will invest its assets in actively managed funds (which invest using manager discretion) and passively managed funds (which aim to replicate performance of a market index), including those managed by abrdn, to obtain broad exposure to a range of diversified investments.

- Typically, at least 40% of the assets will be those traditionally viewed as lower risk, such as cash, assets that can be turned into cash quickly, government bonds (which are like loans to governments that pay interest) and investment grade corporate bonds (which are like loans to companies that pay interest and are typically regarded as having a low default risk).

- The rest of the fund will be invested in a selection of other assets. These will include assets such as equities (company shares), including property shares, high yield corporate bonds (which are like loans to companies that pay a high rate of interest but have a lower credit rating than investment grade bonds) and emerging market bonds (which are like loans to companies or governments that pay a rate of interest, invested in regions including Eastern Europe, Asia, Africa, Latin America and the Middle East).

- All funds selected will adhere to the abrdn MyFolio Sustainable Investment Approach (the "Investment Approach") available on [www.abrdn.com](http://www.abrdn.com) under "Fund Centre".

- This means they must have one of the following characteristics: i) Sustainable Funds - funds which explicitly target improved

environmental, social and governance ("ESG") or sustainability related outcomes; or ii) Impact Funds - funds which aim to make a positive, measurable environmental and/or social impact alongside strong financial returns; or iii) Neutral Funds - funds which have no specific ESG or sustainability criteria within their investment objective or process. Neutral Funds will include holdings in cash, assets that can be turned into cash quickly, and government bonds.

- The use of Neutral Funds is limited to 25% of the total portfolio.

### Management Process

- The management team (the "Team") use their discretion (active management) to select funds within each asset class and ensure that the strategic asset allocation (long term proportions in each asset class) meets the fund's objectives.

- The Team will review and analyse the investments within the underlying funds to assess alignment with the Investment Approach and meet with the fund managers to discuss the fund's philosophy.

- For Sustainable Funds, the Team identify funds that explicitly consider and embed positive ESG factors when making investments.

- For Impact Funds, analysis will include assessing whether investments are made in assets which focus on aiming to generate net-positive social and environmental impacts alongside positive financial returns.

- With the exception of the Neutral Funds, the Team will only invest in funds that have an active engagement and voting policy.

- Additionally, the fund seeks to avoid investment in companies which are related but not limited to tobacco, coal and weapons, as more particularly detailed in the Investment Approach.

- Please note that the number contained in the fund name is not related to the SRRI contained in the Key Investor Information document (NURS-KII).

### Derivatives and Techniques

- The fund is not expected to invest in derivatives directly however it may invest in other funds which use derivatives.

- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

**Recommendation:** the fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

The fund's realized volatility may not always be within the volatility band for the stated risk level and at times observing the asset allocation restrictions may limit capital growth.

## RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 4 because of the extent to which the following risk factors apply:

- The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.
- The fund price can go up or down daily for a variety of reasons including changes in interest rates, inflation expectations or the perceived credit quality of individual countries or securities.
- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the fund's benchmark or

universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.

- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The fund may hold money-market instruments, the value of which may be subject to adverse movements in extreme market conditions.
- The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.
- The fund invests in high yielding bonds which carry a greater risk of default than those with lower yields.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income. The value of assets held in the fund may rise and fall as a result of

exchange rate fluctuations.  
The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.  
In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet

CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the fund over a year	
Ongoing charges	0.65%
Charges taken from the fund under certain specific conditions	
Performance fee	0.00%

PAST PERFORMANCE

PRACTICAL INFORMATION

Name of Depositary: Citibank UK Limited, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB.  
Further information about abrdrn OEIC III (Prospectus, report & accounts) can be found at [www.abrdrn.com](http://www.abrdrn.com), where documents may be obtained free of charge.  
Other practical information (e.g. where to find latest share prices) can be found in documents held at [www.abrdrn.com](http://www.abrdrn.com).  
Details of the up to date remuneration policy which includes a description of how remuneration and benefits are calculated, the identities of the persons responsible for awarding remuneration and benefits and the composition of the remuneration committee, are available at [www.abrdrn.com](http://www.abrdrn.com) and a paper copy will be available free of charge upon request from abrdrn Fund Managers Limited.  
Prospective investors should consult their own professional advisers on the potential tax consequences of acquiring, holding or selling shares. abrdrn Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the abrdrn OEIC III.  
Other share classes are available in the fund and further information about these can be found in the abrdrn OEIC III.  
abrdrn OEIC III is an umbrella structure comprising a number of different sub funds, one of which is this fund.  
This document is specific to the fund and share class stated at the beginning of this document. However, the Prospectus, annual and half-yearly reports are prepared for the entire umbrella.  
The assets of a sub fund within the umbrella belong exclusively to that sub fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body including abrdrn OEIC III and any other sub fund. Any liability incurred on behalf of or attributable to any sub fund shall be discharged solely out of the assets of that sub fund.  
Investors may switch their shares in the fund for shares in another sub

redemptions in a timely manner.  
The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.  
The Ongoing Charges figure reflects the amount based on the expenses within the annual report for each financial year. This figure may vary from year to year. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking.  
Where the Fund invests in an open-ended collective investment scheme which is operated or managed by the ACD/the Manager or an associate of the ACD/the Manager, no additional annual management charge will be incurred by the Fund on such an investment.  
The annual report for each financial year will include detail on the exact charges made.  
The Ongoing Charge figure is as at 30/06/2023.  
A switching charge may be applied in accordance with the Prospectus. For more information about charges please see Prospectus.  
Further information on the charges can be found in the Prospectus.

Past performance is not a guide to future performance.  
Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.  
Performance is calculated in GBP.  
The fund was launched in 2020. The share/unit class was launched in 2020.  
Performance Comparator – [65% SONIA. 35% MSCI AC World].
