This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Asian Dividend Fund

a sub-fund of Fidelity Investment Funds

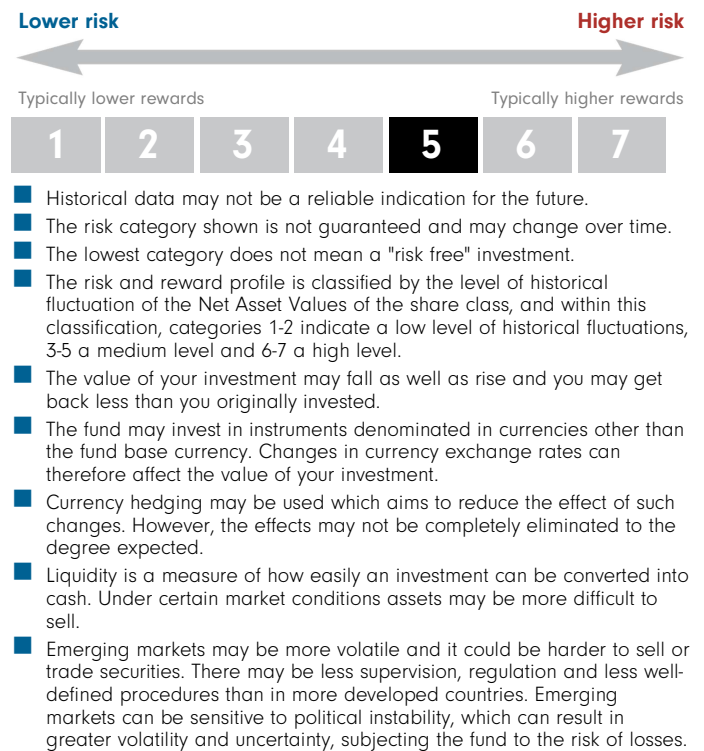

A Income Shares (ISIN: GB00B8W5LT41)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

- The fund aims to pay you an income and increase the value of your investment over a period of 5 years or more.
- The fund will invest at least 70% in companies in the Asia Pacific region (excluding Japan). This region includes countries considered to be emerging markets as determined by the Investment Manager at its sole discretion.
- Emerging markets are countries progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body.
- The companies will be either listed, incorporated, domiciled, or have significant business activities in the region.
- The remainder will be invested in companies outside of the region detailed above and in other investment types such as cash and derivatives.
- Derivatives are investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates and used to reduce risk or transaction costs and/or to generate extra income or further increase the value of your investment.
- The fund aims to hold a concentrated portfolio, investing in 30-50 companies or other types of investment.
- The Investment Manager will choose investments which it believes offer attractive income in addition to increasing their share price.
- The fund is actively managed without reference to a benchmark.
- The fund has full discretion in its choices of investments within its objectives and policies.
- Income from the fund is either paid out to you or it is used to buy you more shares in the fund.
- As the fund aims to generate an income, some charges will be taken from the fund rather than the income generated by the fund. This means the amount payable as income may be increased and the potential to increase the value of your investment may be reduced.
- Shares can usually be bought and sold each business day of the fund.
- With effect from 23 February 2021, this A Income share class will convert into the equivalent W Income share class.
