Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Ashmore SICAV Emerging Markets Frontier Equity Fund: Retail GBP (Inc)

A sub-fund of Ashmore SICAV (the "Fund") ISIN: LU0907547185

Management Company: Ashmore Investment Management (Ireland) Limited

Objectives and Investment Policy

The Sub-Fund's objective is to seek capital appreciation by investing in a range of transferable securities and/or other liquid financial assets. The Sub-Fund is actively managed by Ashmore Investment Management Limited (the "Investment Manager") and references MSCI Frontier and Select Emerging Markets Countries Capped (the "Benchmark") as part of its investment process for the purposes of comparing its performance against that of the Benchmark. The Investment Manager has full discretion over the composition of the portfolio of the Sub-Fund and may take exposure to companies, countries or sectors not included in the Benchmark.

The Sub-Fund aims to be mainly invested in equities and equity related instruments issued by corporate and quasi-sovereign entities located in Frontier Emerging Markets. The Sub-Fund will also seek to access the returns available from securities of other investment companies designed to permit investments in a portfolio of equity securities listed in a particular frontier market country or region, including exchange-traded funds. The Sub-Fund may also seek access to returns from related synthetic products of all types and denominated in any currency whose returns vary on the basis of the issuer's profitability.

Frontier Emerging Market means any country included in the MSCI Frontier Markets Index and any other country which the investment manager determines from time to time. Corporate entities must be domiciled in or derive at least 50% of their revenue or profits from goods produced or sold, investments made or services performed in one or more Frontier Emerging Markets or that have at least 50% of their assets in one or more Frontier Emerging Markets.

Equities and equity-related instruments issued by corporate entities that are corporate entities outside of Frontier Emerging Markets may not exceed 20% of the Sub-Fund's net assets.

The Sub-Fund may also be invested in financial instruments whose value derives from the value and characteristics of one or more underlying assets (derivatives) and engage in certain techniques for hedging purposes and efficient management of assets. Investments in equity-related, Money Market and derivatives instruments shall not exceed 50% of the total investments made by the Sub-Fund.

Margin associated with on exchange derivative and futures transactions and premium associated with over-the-counter option transactions and payable for such transactions shall not exceed 10% of the Sub-Fund's net assets.

The Sub-Fund may not grant loans or guarantees in favour of a third party.

The Sub-Fund focuses on fundamentally-driven, bottom-up stock selection and country/sector allocation is reviewed to ensure adequate diversification. The Sub-Fund may, on an ancillary basis, hold cash and invest in Money Market Instruments including in money market UCITS or UCIs denominated in US$ or other currencies.

The reference currency of the Sub-Fund is USD. The Sub-Fund is considered as falling within the scope of Article 6 of the EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR") as it does not promote nor maximize portfolio alignment with sustainability factors.

Transaction costs may have a material impact on performance, depending on factors such as market liquidity.

Any income gains on your shares will be distributed on an annual basis, unless you request otherwise in writing.

You can buy or sell shares in this Sub-Fund on any bank business day in both Luxembourg and London (excluding Saturdays and Sundays), or such other days as the board of directors shall determine from time to time by submitting an application form to the Administrator before the dealing deadline.

Risk and Reward Profile

Lower risk ← → Higher risk

Potentially lower reward — Potentially higher reward

1	2	3	4	**5**	6	7

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The above risk and reward indicator is calculated using the guidelines set out by the CESR (Committee of European Securities Regulators).

Other risks which are not part of the calculation include the following:

Credit risk: The issuer of a financial asset held within the Sub-Fund or a counterparty may not pay income or capital to the Sub-Fund when due.

Liquidity risk: If there are insufficient buyers or sellers of the underlying instruments, it could affect the ability to value and trade the assets.

Counterparty risk: The risk that parties with whom the Sub-Fund contracts for the purpose of making investments (the "counterparty") and, where relevant, the entity in the Emerging Market with whom the counterparty has made arrangements to ensure an on-shore presence in the Emerging Market may not meet their contractual obligations.

Operational risk: The risk of loss resulting from inadequate or failed procedures, systems or policies.

Custody risk: The transaction and custody risk of dealing in Emerging Market investments due to the less developed nature of some emerging markets.

Interest rate risk: Changes in interest rates can result in positive or negative fluctuations in the value of the assets held by the Sub-Fund.

Currency risk: The Sub-Fund invests in different currencies. Changes in exchange rates will affect the value of the Sub-Fund.

Derivatives: The Sub-Fund may also invest in derivatives whose value derives from the value and characteristics of one or more underlying asset. These derivatives may be used for hedging (against currency risk, for example) or as investments. Their use may increase the risk of losses as well as enhance potential gains compared to funds that do not use derivatives.

Emerging Markets carry risks as well as rewards. The Sub-Fund invests in Emerging Markets, which may be more volatile than more mature markets and the operational risks of investing are higher than in developed markets. The value of your investment could go down as well as up. In extreme circumstances this could result in a total loss of your investment.

Because of the risks involved, investment in the Sub-Fund is only suitable for investors who have experience of volatile products, understand the risks involved and are able to bear the loss of a substantial portion or even all of the money they invest in the Sub-Fund. As a result of these risks investors are strongly advised to seek independent professional advice on the implications of investing in the Sub-Fund.

Further information on risks may be found under the "Risk Factors" section of the Fund's Prospectus.
