Rubrics India Fixed Income UCITS Fund

(GBP Class C1)

A sub-fund of Rubrics Global UCITS Funds plc

RUBRICS

Managed by Carne Global Fund Managers (Ireland) Limited (the “Manager”)

ISIN: IE00B4M6R919

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Rubrics India Fixed Income UCITS Fund (the “Fund”) is to achieve a total return by way of capital growth and income by investing in fixed income securities issued by the Indian government and government-owned companies of Indian origin also known as PSUs (public sector undertakings).
- The Fund will primarily invest in Indian government bonds and government-backed corporate (PSU) bonds.
- Investment in corporate bonds will principally be in bonds with a rating of AAA or equivalent by rating agencies registered with the Securities and Exchange Board of India. The equivalent rating from international credit rating agencies such as Standard & Poor's and Moody's Investment Services, Inc. is currently investment grade.
- The Fund may invest in fixed income securities indirectly using collective investment schemes.
- The Fund will carry out its investment objective by investing substantially through a Mauritian vehicle, IFI Rubrics Limited (the “Mauritian Vehicle”).
- The Fund may use simple financial derivative instruments (“FDI”). The Fund does not intend to invest in FDI or to utilise FDI for the purpose of hedging the Fund's interest rate or credit risks.
- The Fund may, however, utilise FDI to obtain currency exposure to the Indian Rupee in the event of a material subscription or redemption from the Fund.
- The investment manager is free to choose how the Fund is invested within the limits of its investment policy.
- Any income will be added to the value of your investment.
- You may submit redemption requests on any day that banks are open in Ireland.
- The Fund may not be appropriate for investors who plan to withdraw their money within five years.
- The Fund is considered to be actively managed in reference to Bloomberg Barclays EM Local Currency Liquid Government TR Index Unhedged USD (the “Benchmark”) by virtue of the fact that it uses the Benchmark for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the Benchmark. However the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.
- For further information, please see the “Investment Objective” and “Investment Policy” sections of Supplement 3 to the Prospectus.

RISK AND REWARD PROFILE

Lower Risk Higher Risk

←—————→

Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk category is based on price volatility over the last five years, and is an indicator of absolute risk. Historical data, such as is used in calculating the indicator may not be a reliable indicator of the future risk profile of the Fund.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Why is this Fund in category 5?

This Fund is classified in category 5 (denoting medium risk, but with moderate potential for higher rewards) because its simulated Net Asset Value has shown moderate fluctuations historically.

Risks materially relevant to the fund which are not adequately captured by the indicator:

- Default Risk - The Fund invests in fixed income securities issued by the Indian government and government owned companies of Indian origin. Consequently, although default risk is reduced, it cannot be eliminated.
- Emerging Market Risk - Emerging economies such as India typically exhibit higher levels of investment risk.
- Interest Rate Risk - The value of units may be affected by substantial adverse movements in interest rates.
- Currency Risk - Since a majority of investments will be in rupee-denominated securities, there is a likelihood of losses due to depreciation of the rupee against global currencies.
- Counterparty Risk - The insolvency of any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Fund to financial loss.

Please see the section entitled Risk Factors in Supplement 3 to the Prospectus for a full list of risks related to the Fund.
