

Xtrackers FTSE 100 Equal Weight UCITS ETF

Share Class: 1D (ISIN: IE00BZ0CYG46), (WKN: A14VAL), (Currency: GBP)

a sub fund of Xtrackers (IE) plc. The Fund is managed by DWS Investment S.A., part of the DWS Group.

Objectives & Investment Policy

The aim is for your investment to reflect the performance, before fees and expenses, of the FTSE 100 Semi Annual Equally Weighted Index (Index) which itself, is designed to reflect the performance of large UK listed companies that are constituents of the FTSE 100 Index with each company in the Index being allocated a fixed weight of 1% at times of rebalancing. The Index contains shares of large sized publicly held companies actively traded on the London Stock Exchange.

The Index is calculated on a total return net basis which means that all dividends and distributions made by the companies comprised in the Index are reinvested in the shares after tax.

The Index is reviewed and rebalanced semi-annually, to coincide with the June and December adjustments of the FTSE 100 Index. The constituents of the Index may differ from the

constituents of the FTSE 100 Index as a consequence of differences in the rebalancing cycle.

To achieve the aim, the Fund will attempt to replicate the Index, before fees and expenses, by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as the Index as determined by DWS entities.

The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives.

Dividends may be paid on your shares up to four times per annum.

You may redeem your shares on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 5 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund will attempt to replicate the performance of the Index less costs, but your investment is not expected to match the performance of the Index precisely. Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's performance to be substantially different from the performance of the Index.

DWS entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.

The Fund follows a rules-based strategy which will deviate from the overall market or parent index performance. Your investment may be less diversified, with no guarantee that the strategy will be achieved.

The Fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
