Guinness European Equity Income Fund class X GBP Acc

Guinness European Equity Income Fund , a sub fund of Guinness Asset Management Funds plc

Objective & Investment Policy

The fund aims to increase the value of the amount you invest in it over a period of years. To do this the fund invests in the shares of a range of companies doing business in Europe (excluding the UK). The fund will normally invest in at least four different countries. The Fund is considered to be actively managed in reference to the MSCI Europe ex UK Index (the “Benchmark”) by virtue of the fact that it uses the Benchmark solely for performance comparison purposes. The Benchmark is

not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark. Any income the fund receives will be reinvested to grow the value of your investment. You may sell your investment on any working day in Ireland. Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and Reward Profile

The risk and reward indicator shows where the fund ranks in terms of its potential risk and return. The higher the rank the greater the potential reward but the greater the risk of losing money. The shaded area in the table shows this fund's rank. The fund is ranked as higher risk as its price has shown high fluctuations historically. This is based on how investments have performed in the past and you should note that the fund may perform differently in the future and its rank may change. Historical data may not be a reliable indicator for the future.

Please note that even funds with the lowest rank may lose you money. In addition to the level of risk shown by the indicator, there are other risks associated with this fund. The fund invests mainly in shares, and the value of these may fall or rise due to a number of factors, including the performance of the company and general stock market and exchange rate fluctuations. The value of your investment may rise or fall and you could get back less than you invest. Further information about risks can be found in the Prospectus.
