# FRANKLIN TEMPLETON

## FTF Martin Currie European Unconstrained Fund

Class X Accumulation

ISIN: GB00BVZ6V174

**A sub-fund of:** Franklin Templeton Funds II (the "Company")

**Managed by:** Franklin Templeton Fund Management Limited, part of the Franklin Templeton group of companies.

### Objectives and Investment Policy

#### Objective

The fund's goal is to achieve growth of the fund's value in the long term (over five or more years), through investment in a concentrated portfolio comprised of at least 80% of shares of European, excluding the United Kingdom (UK), companies.

#### Investment Policy

- The fund will invest at least 80% of its assets in shares of companies located or listed in Europe (excluding UK) or, that the predominant part of their economic activity in Europe (excluding UK). Such investment may be directly in such shares or indirectly via derivatives (financial instruments whose value is derived from the value of other assets).
- The investment manager seeks to identify shares of companies that have the potential to generate or sustain a high return on invested capital; have the potential to provide an attractive growth profile and/or cash flow generation over the long term; and are expected to have supportive accounting practices and environmental, social and governance (ESG) practices.
- To determine whether a company meets these criteria, the investment manager analyses the company's positioning within its industry and the dynamics of that industry and makes financial projections for the company. If a company passes the investment manager's initial screening then an in-depth analysis and valuation of the company is undertaken.
- The fund will typically invest in 20 to 40 companies.

- The fund's investments may be denominated in currencies other than the base currency (Pound Sterling), the investment manager will not attempt to hedge currency exposure back to the base currency.
- The fund may invest in derivatives, to help try to achieve the fund's objective or to generate additional growth (investment purposes) as well as to reduce risk or cost for the fund (efficient portfolio management).

**Benchmark:** MSCI Europe ex UK (Net Dividends) Index

**Manager's Discretion:** The fund is actively managed. The investment manager has discretion in selecting investments within the fund's objective and investment policies. The fund uses the benchmark for performance comparison purposes. While most of the fund's investments will be components of the benchmark, the weightings of the fund's holdings may differ materially from the weightings in the benchmark. The fund will also invest in securities that are not included in the benchmark. The fund's percentage exposures to sectors and industries may differ materially from those of the benchmark.

**Recommendation:** This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

**Dealing Frequency:** You can buy, sell and switch your shares on each day that the London Stock Exchange is open for business.

**Minimum Initial Investment:** For this share class the minimum initial investment is GBP 3,000.

**Treatment of Income:** Income and gains from the fund's investments are not paid but instead are reflected in the fund's share price.

### Risk and Reward Profile

The indicator is based on the volatility of the returns (past performance) of the reported share class (calculated on a 5 year rolling return basis). Where a share class is inactive / has less than 5 years of returns, the returns of a representative benchmark are used.

There is no guarantee that the fund will remain in the indicator category shown above and the categorisation of the fund may shift over time. Historical data, which is used in calculating the indicator, may not be a reliable indicator of the future risk profile of this fund.

The lowest category does not mean a risk-free investment.

The fund does not offer any capital guarantee or protection and you may not get back the amount invested.

The fund is in its risk/reward category because a concentrated investment (the fund holds fewer investments than many other funds) in shares of companies from various European, excluding the UK, countries and sectors has historically been subject to large fluctuations in value.

The fund is subject to the following risks which are materially relevant but may not be adequately captured by the indicator:

**Investment in company shares:** The fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

**Geographical focus:** This fund invests primarily in Europe, which means that it is more sensitive to local economic, market, political or regulatory events in Europe, and will be more affected by these events than other funds that invest in a broader range of regions.

**Concentrated fund:** The fund invests in fewer companies than other funds which invest in shares usually do. This means that the fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

**Fund currency:** Changes in exchange rates between the currencies of investments held by the fund and the fund's base currency may negatively affect the value of an investment and any income received from it.

**Derivatives:** The use of derivatives can result in greater fluctuations of the fund's value and may cause the fund to lose as much as or more than the amount invested.

**Fund operations:** The fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of its assets.

For further explanation on the risks associated with an investment in the fund, please refer to the section entitled "Risk Factors" in the prospectus.

## Charges

<b>One-off charges taken before or after you invest</b>	
<b>Entry charge</b>	none
<b>Exit charge</b>	none
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
<b>Charges taken from the fund over a year</b>	
<b>Ongoing charge</b>	0.91%
<b>Charges taken from the fund under certain specific conditions</b>	
<b>Performance fee:</b>	none

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Entry and exit charges shown are the maximum that might be taken out of your money. In some cases, you might pay less and you should speak to your financial adviser about this.

The ongoing charge is based on expenses for the 12 month period ending January 2022. This figure may vary over time.

For more information about charges, please see the 'Fees and Expenses' section in the fund's prospectus and relevant appendix.

## Past Performance

1 Performance prior to 17 December 2018 was achieved under circumstances that no longer apply, because the investment objective and policy was different.

The fund was launched on 26 June 2015 and the share class began issuing shares on 26 June 2015.

Past performance has been calculated in GBP.

Past performance prior to the share class inception date noted has been simulated by using performance of another share class of the same fund, which had higher fees but no longer exists.

The performance reflects all fees and charges payable by the fund but does not reflect any entry or exit charge that might be payable.

Past performance is no guide to future returns and may not be repeated.
