## Legal & General MSCI World Socially Responsible Investment (SRI) Index Fund Unit Class R GBP Income - ISIN: GB0007642548

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

### OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to track the performance of the MSCI World SRI Index, the "Benchmark Index" on a net total return basis before fees and expenses are applied. Fund performance may differ from the Benchmark Index due to the deduction of fees and expenses and the impact of any tracking error factors.
  - The Benchmark Index is comprised of shares in companies across various developed markets and it is constructed with an aim to represent the performance of companies that are consistent with specific values and climate change-based criteria and that have high environmental, social and governance ratings relative to their sector peers.
  - The Fund seeks to replicate the Benchmark Index as closely as possible by holding all, or substantially all, of its constituents in a similar proportion to their weightings in the Benchmark Index.
  - The Fund will generally hold assets directly but can use depositary receipts (such as American depositary receipts and global depositary receipts) to gain exposure such as when the direct asset cannot be held or is not available.
  - The Fund may also invest in shares in companies which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index, money market instruments (such as treasury bills), depositary receipts, cash, deposits and collective investment schemes including those managed or operated by the Manager or an associate of the Manager.
  - The Fund may use derivatives (contracts which have a value linked to the price of another asset) to:
    - reduce risk or cost; or
    - generate additional capital or income with no, or an acceptably low, level of risk.
- Other information:
- The Fund is passively managed as it tracks the Benchmark Index.
  - Your units will be income units. Income from the Fund's investments will be paid out to you every six months (as dividends). This will reduce your capital growth accordingly.
  - You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 3pm. This is the time we calculate unit prices for this Fund. If you contact us after 3pm, the units will be bought or sold at the next business day's price.
  - The Fund's base currency is denominated in GBP.
  - This Fund may be suitable for investors looking to invest in Global company shares that confirm to a range of Ethical and Environmental guidelines.
  - Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
  - This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
  - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
- The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- Even a fund in the lowest category is not a risk free investment.
- The value of your investment and any income you take from it may fall as

well as rise and is not guaranteed. You might get back less than you invest. Further information on the risks of investing in this fund is contained in the Prospectus available at [www.legalandgeneral.com/reports](http://www.legalandgeneral.com/reports).

The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The Fund has a sustainability and/or ESG focus in its investment process which may i) limit the Fund's exposure to or exclude certain companies, industries or sectors ii) impact the Fund's investment performance compared to other funds that do not apply such criteria and, iii) differ from an investor's own sustainability and/or ESG criteria.
- The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.
