# **Company Highlights**

| Experienced<br>Management Team   | Experienced leadership team comprised of lower middle market specialists with strong credit quality expertise and a proven record having generated solid historical realized returns over many credit cycles.   |
|----------------------------------|---|
| Alignment to<br>Shareholders     | Enhanced shareholder value through attractive contract terms, insider ownership, portfolio monetizations, beneficial refinancing arrangements, and attractive share repurchases/tender offers conducted.  |
| Market Opportunity               | The Lower Middle Market ("LMM") has the largest number of potential transactions, but is<br>burdened by inconsistent and overly prescribed bank providers and unpredictable non-bank<br>providers. Given the Yield Team's history investing in this segment of the market, MVC is poised<br>to fill the void. |
| Unique Deal Flow                 | Well-established, nationwide Commercial Bank Partners ("CBP") network provides unique LMM deal flow and attractive risk-adjusted returns.   |
| Significant Access to<br>Capital | Access to potential significant investment capital for future debt investments through cash, potential increased leverage capacity, and realizing potential equity monetizations.   |
| Co-Investment<br>Opportunities   | Expected to help enhance deal flow, accessing larger deals, while improving diversification and granularization across the portfolio (smaller investment sizes). Top tier BDC investment partner provides extra verification on all co-investment opportunities.  |
| Consistent Distributions         | MVC has paid uninterrupted quarterly dividends to shareholders that have increased over time. As of January 10, 2020, a total of \$8.08 per share has been distributed since instituting the dividend policy in 2005.   |
