(“ADVFN” or the “Group”)
Unaudited Interim Results for the Six Months Ended 31 December 2022

ADVFN today announces its unaudited interim results for the six months ended 31 December 2022 (the “Period”).

Chief Executive’s Statement

On behalf of the board of Directors, I am delighted to report that our recent fundraising has been a success. As announced in January, we raised £4.52 million through the Open Offer and which will provide us with the necessary resources to pursue our strategic objectives and drive growth.

We are grateful to our investors for their confidence in our ability to execute on our mission and deliver value to our customers. With this infusion of capital, we can invest in our business to drive growth and scale our operations to meet the demand for our product offerings.

Looking ahead, we have a positive outlook for the future. Our roadmap includes expanding our product portfolio, entering new geographic markets, and strengthening our partnerships with our key stakeholders. We are confident that these initiatives will drive further growth and establish our position as a leader in our industry.

Financial performance

The half-year financial report for the Period is in line with the statements made in the Open Offer document and our trading update. The changes in management, structure and employees disrupted our normal workflow during the Period and made it a challenge for the Company to meet its financial targets. However, the Company remains optimistic and with the Open Offer completed and the changes we are working on, we have confidence in our new team. The Company acknowledges that changes take time and appreciates the efforts being made by the team.

The key financial performance for the Period is summarised in the table below:

	Six Months ended 31 December 2022	Six Months ended 31 December 2021
	£'000	£'000
Revenue	3,061	4,228
Profit / (loss) for the period	(616)	202
Operating profit / (loss)	(622)	229
Profit per share – basic (see note 3)	(2.36) p	0.77p

The Board is not recommending a dividend.

Outlook

As we move forward into 2023, I am excited to share with you our plans to build new products and invest in our operations to drive growth and deliver value to our users and shareholders.

With the proceeds from our recent fundraising efforts, we will be able to accelerate our product development efforts and plan to bring innovative new solutions to market. Our R&D team is working tirelessly to identify emerging trends and technologies that will enable us to stay ahead of the curve and deliver the next generation of products and services.

We also plan to invest in our operations to improve our efficiency and scalability. This will involve upgrading our infrastructure, streamlining our processes, and investing in our people to ensure that we have the talent and capabilities to support our growth ambitions.

As we pursue these initiatives, we remain committed to maintaining a disciplined approach to capital allocation and managing our resources in a way that delivers the best returns for our shareholders. We will closely monitor our progress and adjust our strategy as necessary to ensure that we achieve good results.

In summary, we are confident that our focus on product innovation, operational excellence, and disciplined capital allocation will enable us to achieve our growth objectives and create long-term value for all our stakeholders.

We thank our shareholders for their continued support, and we look forward to providing further updates on our progress in the months ahead.

2. Basis of preparation

These condensed interim financial statements have been prepared in accordance with IAS 34, “Interim Financial Reporting”.

The financial information does not include all the information required for full annual financial statements. The same accounting policies and methods of computation have been followed in the interim financial statements as compared with the full audited financial statements and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2022, which were prepared under applicable law and in accordance with UK-adopted international accounting standards.

The unaudited consolidated interim financial information is for the six-month period ended 31 December 2022.

The financial statements are presented in Sterling (£) rounded to the nearest thousand except where specified.

The interim financial information has been prepared on the going concern basis which assumes the Group will continue in existence for the foreseeable future.

No material uncertainties that cast significant doubt about the ability of the Group to continue as a going concern have been identified by the directors. Accordingly, the directors believe it is appropriate for the interim financial statement to be prepared on the going concern basis.

The principle risks and uncertainties of the Company remain the same as those reported in the consolidated financial statements of the Group for the year ended 30 June 2022.

The interim financial information has not been audited nor has it been reviewed under ISRE 2410 of the Auditing Practices Board. The financial information presented does not constitute statutory accounts as defined by section 434 of the Companies Act 2006. The Group's statutory accounts for the year to 30 June 2022 have been filed with the Registrar of Companies. The auditors, Saffery Champness LLP reported on these accounts and their report was unqualified and did not contain a statement under section 498(2) or Section 498(3) of the Companies Act 2006.

3. Earnings per share

	6 months to 31 Dec 2022 £'000	6 months to 31 Dec 2021 £'000	12 months to 30 June 2022 £'000
(Loss) / profit for the year attributable to equity shareholders	(622)	202	(1,368)
	Shares	Shares	Shares
Weighted average number of shares in issue for the period	26,315,319	26,115,318	26,184,360
Dilutive effect of options	-	1,144,585	-
Weighted average shares for diluted earnings per share	26,316,319	27,259,903	26,184,360
(Loss) / earnings per share (pence)			
Basic	(2.36p)	0.77p	(5.22p)
Diluted	(2.36p)	0.74p	(5.22p)

Where a loss has been recorded for the year the diluted loss per share does not differ from the basic loss per share. Where a profit has been recorded but the average share price for the year remains under the exercise price the existence of options is not normally dilutive. However, whilst the average exercise price of all outstanding options is above the average share price there are a number of options which are not. Under these circumstances those options where the exercise price is below the average share price are treated as dilutive.

4. Dividends

The directors are not recommending payment of a dividend in the current financial year.

5. Events after the balance sheet date

On 6 January 2023, the company raised £4.523m by way of an open offer of shares to qualifying shareholders. A total of 20,676,322 shares were offered to existing shareholders at a price of 33 pence per share. 13,708,300 shares were taken up.
