About ZOO Digital Group plc:

ZOO Digital supports major Hollywood studios and streaming services to globalise their content and reach audiences everywhere, by providing leading, technology-enabled localisation and media services.

Founded in 2001, ZOO Digital operates from hubs in Los Angeles, London, Dubai, Turkey, South Korea, India, Denmark and Spain with a development and production centre in Sheffield, UK.

The Group provides media services through its platforms that include: ZOOsubs, ZOOdubs and ZOOstudio. Its full-service proposition delivers the end-to-end services required to prepare both original and catalogue content for digital distribution; these services include dubbing, subtitling & captioning, metadata creation & localisation, mastering, artwork localisation and media processing. Alongside this offering, ZOO also provides its customers with management platforms and strategic solutions to support their own internal globalisation operations.

ZOO is a go-to service partner for media businesses looking to globalise their content across different territories, languages and distribution platforms. Using its innovative technology-enabled approach, ZOO helps its customers to reduce time to market, lower costs and deliver high quality products to their global audiences. The business has frameworks in place with all major Hollywood studios and streaming services. Its customers include Disney, NBCUniversal, HBO and Paramount Global.

ZOO's competitive advantage arises from three interlinking factors - the leading role it has played in the digital transformation of its sector; the world class proprietary platforms that it develops to enable this transformation; and the global supply chain of thousands of freelancers, working collaboratively in ZOO's platforms, which delivers services that scale easily to meet demand. These factors combine to make ZOO uniquely placed to capitalise on new market opportunities in a fast-paced and constantly evolving industry.
