

AS AT 31 MARCH 2024

Investment objective

The fund aims to provide a balance of income and capital growth.

Investment strategy

The starting point for the Manager's investment process is identifying the best mix of asset classes to create a strategic asset allocation (SAA) customised for each 7IM risk profile. The SAA is then adapted to financial markets to enhance return and reduce volatility on a tactical basis using 7IM's tactical asset allocation process (TAA), making temporary and measured departures from the SAA. The investment strategy for the fund encompasses detailed screening for sustainability as set out in the prospectus using both negative screening to exclude investments which are significantly involved in unacceptable business areas and positive screening to select investments with high or improving environmental, social and governance standards.

Investment process

The fund assesses environmental, social and governance (ESG) factors in determining what assets to invest in. For direct equity holdings, the fund employs a two-stage screening process comprising of investment restrictions and ethical conduct screening. The first stage of the screening process excludes companies from certain industries or with significant exposure, more than 10% of revenues, (such as alcohol and gambling). The second stage screens the remaining investment universe for companies exhibiting unacceptable conduct (such as corruption or poor labour practices). Positive screening is then applied to identify companies which exhibit positive ethical conduct (such as sustainable environmental practices and conscientiousness with regard to human rights). When selecting third party funds, the negative screens above are applied and then 7IM applies ESG criteria which are fully described in the prospectus and the Fund Screening Document. It is not always possible to apply ESG screens to certain asset classes (e.g. assets held for liquidity purposes such as cash and money market funds). For full details on the fund's investment process, please refer to the prospectus.
