GBP Standard Money Market VNAV Fund

Class: JPM GBP Standard Money Market VNAV A (acc.)

Fund overview

ISIN	Bloomberg	Reuters
LU0070177588	JPMGBPL LX	LU0070177588.LUF

Investment objective: The Sub-Fund seeks to achieve a return in the Reference Currency in excess of GBP money market rates whilst aiming to preserve capital consistent with prevailing money market rates and to maintain a high degree of liquidity.

Investor profile: This liquidity Sub-Fund uses high quality short-term Debt Securities, deposits with credit institutions and Reverse Repurchase Agreements to enhance returns. Investors in the Sub-Fund are therefore likely to be looking for an alternative to cash deposits for their medium-term or temporary cash investments, including seasonal operating cash for pension funds or the liquidity components of investment portfolios.

Performance Disclosures

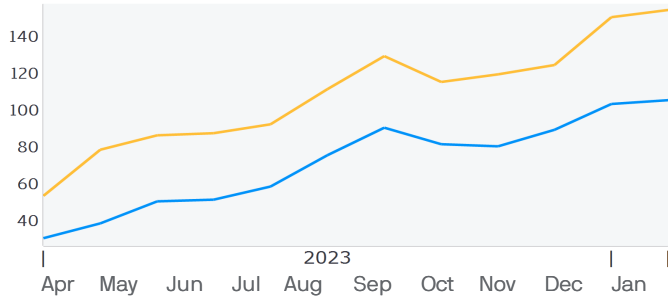

You should remember that past performance is not a reliable indicator of current and future results. The Fund is not a guaranteed investment. The investment in the Fund is different from an investment in a deposit. The value of your investments and any income from them may fall as well as rise in accordance with market conditions. You may not get back the full amount you invested and you bear the risk of any losses. The Fund does not rely on external support for guaranteeing the liquidity of the Fund or stabilising the NAV per share. The Sub-Fund is rated by an external credit rating agency. Such rating is financed by the Sub-Fund.

Key risks

The Sub-Fund´s objective may not be achieved in adverse market conditions and Shareholders may get back less than they originally invested.
In adverse market conditions, the Sub-Fund may invest in zero or negative yielding securities which will have an impact on the return of the Sub-Fund.
The value of Debt Securities may change significantly depending on economic and interest rate conditions as well as the credit worthiness of the issuer. Issuers of Debt Securities may fail to meet payment obligations or the credit rating of Debt Securities may be downgraded.
The credit worthiness of unrated Debt Securities is not measured by reference to an independent credit rating agency.
The counterparty of Reverse Repurchase Agreements may fail to meet its obligations which could result in losses to the Sub-Fund.

Performance information

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees.

The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Following the implementation of the Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on Money Market Funds ("MMFs"), this VNAV MMF launched on 3 December 2018, and was created by an exchange of shares of the accumulating share classes of its predecessor fund.

Please refer to the Prospectus for additional information about cut-off times.

Holdings information

Annualised yields are quoted with a 365 day count convention.

The maturity breakdown is based on calendar days to maturity. These figures differ from the Daily and Weekly Assets figures calculated using business days to maturity. Weekly Assets also includes longer maturity holdings issued by certain government and supra-national authorities, if they can be converted to cash within one week.

Definitions

NAV Net Asset Value of a fund's assets less its liabilities per Share.
Weighted Average Maturity Weighted average maturity or WAM means the average length of time to legal maturity or, if shorter, to the next interest rate reset to a money market rate, of all of the underlying assets in the MMF reflecting the relative holdings in each asset.
Weighted Average Life Weighted average life or WAL means the average length of time to legal maturity of all of the underlying assets in the MMF reflecting the relative holdings in each asset.
Yields The 7-day yield reflects the performance of an investment in the Fund over the past seven days, which is then annualised.

The 30-day yield reflects the performance of an investment in the Fund over the past thirty days, which is then annualised.

The "current" yields are annualised on a simple basis, and the "effective" yields are annualised on a compound basis.
The yields of the Funds fluctuate with market conditions such that an investor´s annualised return may be more or less than the yields reported.
T+1/T+0 T+1 indicates next-day settlement of subscriptions and redemptions; T+0 indicates same-day settlement of subscriptions and redemptions.
