

# First Trust Indxx NextG UCITS ETF

The Fund is a passively managed index-tracking fund that seeks investment results that correspond generally to the price and yield of the Indxx 5G & NextG Thematic Index (the "Index"), before fees and expenses. The equally weighted Index is designed to track the performance of companies that are at the core of the research and development of the 5G cellular technology and next generation technologies as they emerge.

## Performance

The figures shown relate to past performance and do not predict future returns

Performance Since Inception (%)

■ Acc USD

Past performance prior to 29 January 2021 was achieved under circumstances which no longer apply as the fund's investment objective and policy changed and the underlying index changed from NASDAQ AlphaDEX® Japan NTR Index to Indxx 5G & NextG Thematic Index. Therefore, the fund's performance and historical returns shown for the periods prior to this date are not indicative of the performance that the fund, based on its current index, would have generated. Performance up to the date referenced above had been calculated in JPY and took into account ongoing charges but excluding any entry/exit charges. After the index change noted above, the fund's performance is calculated in USD and takes account of ongoing charges but excludes any entry/exit charges.

Performance Summary (%)	1 M	3 M	YTD	1 Y	3 Y	5 Y	Since Inception

Fund performance is the performance of the share class since its inception, shown net of fees including re-invested dividends in the base currency of the share class which is in USD. Performance can go up as well as down, and investors may lose some or all of their capital. Returns may increase or decrease as a result of currency and exchange rate fluctuations. Please refer to the 'Risks' section on Page 3 for more details on risks associated with an investment in the fund.

<sup>1</sup>The ongoing charges figure is based on the Fund's annual management fee, whereby the Investment Manager is responsible for the costs involved in running the Fund. In the event that the Fund's running costs exceed the stated figure the Investment Manager shall pay the excess from its own assets. The ongoing charges figure excludes portfolio transaction costs. Details of the transaction costs are available from your broker or financial advisor and at [www.ftgportfolios.com](http://www.ftgportfolios.com). The figure may vary from year to year.

We strongly recommend that you seek professional advice before making any investment decision. This document is marketing material intended for investors in the UK. - The Index is designed to track the performance of companies that have devoted, or have committed to devote, material resources to the research, development and application of fifth generation ("5G") and next generation digital cellular technologies as they emerge.
- Eligible securities must have a minimum market capitalization of \$500 million, six-month average daily trading volume of at least \$2 million (\$1 million for emerging market companies), traded for at least 90% of the total trading days in the last six months or for a security recently issued in an initial public offering over the prior three months, a minimum free float of 10% of shares outstanding and a share price of less than \$10,000 for new index constituents.
- All eligible securities are analyzed by Indxx and classified into one of two sub-themes based on their exposure to 5G and/or next generation technology, either 5G Infrastructure & Hardware or Telecommunications Service Providers:
- 5G Infrastructure & Hardware consists of Data Center REITs, Cell Tower REITs, Equipment Manufacturers, Network Testing and Validation Equipment and Software Companies and Mobile Phone Manufacturers.
- Telecommunications Service Providers consist of companies that operate the mobile cellular and wireless communication networks that offer access to 5G networks.
- Eligible securities are ranked by market capitalization and up to 100 securities with the largest market capitalizations are selected. 80% of the index weight is allocated to 5G Infrastructure & Hardware and 20% of the index weight is allocated to Telecommunications Service Providers. The companies are then equally weighted within each sub-theme.
- The Index is reconstituted and rebalanced semi-annually.

## Risks

- **CAPITAL AT RISK.** The Fund may not achieve its investment objective and the value of shares in the Fund may fall. Investors may not get back the amount originally invested.
- Neither First Trust Global Portfolios Limited nor any of its affiliates, guarantees the performance or the future returns of the Fund.
- The Fund invests in companies with exposure to emerging technologies. Such issuers may be exposed to risks that may not fully emerge until the technology is more widely used. Companies that initially develop or adopt a novel technology may not be able to capitalize on it and there is no assurance that a company will derive any significant revenue from it in the future.
- There is no assurance that the Index will continue to be calculated and published on the basis described in the prospectus and relevant supplement. In addition, the Fund's return may not match the return of the Index.
- See also the description of the risks applicable to the Fund in "Risk Factors" in the prospectus and relevant supplement.
