

JPMorgan ETFs (Ireland) ICAV -

# Europe Research Enhanced Index Equity (ESG) UCITS ETF

Class: JPM Europe Research Enhanced Index Equity (ESG) UCITS ETF - EUR (acc)

## Fund overview

ISIN IE00BF4G7183		
<b>Investment objective:</b> The Sub-Fund aims to achieve a long-term return in excess of MSCI Europe Index (Total Return Net) (the "Benchmark") by actively investing primarily in a portfolio of European companies.		
<b>Investment policy:</b> The Sub-Fund pursues an actively-managed investment strategy.		
<b>Investment approach</b> <ul style="list-style-type: none"><li>• Uses a fundamental, bottom-up stock selection process.</li><li>• Enhanced index approach that builds a portfolio in reference to the benchmark by overweighting securities with the highest potential to outperform and underweighting securities considered most overvalued.</li><li>• Diversified portfolio with disciplined, risk-controlled portfolio construction.</li><li>• Applies values and norms based screening and implements minimum investment thresholds on companies with positive ESG characteristics.</li></ul>		
<b>Investor profile:</b> Typical investors in the Sub-Fund are expected to be investors who want to take broad market exposure to European stock markets, who seek to benefit from potential excess returns with similar risks to investing in securities representing the Benchmark and who are prepared to accept the risks associated with an investment of this type, including the volatility of such market.		
<b>Portfolio manager(s)</b> Piera Elisa Grassi Nicholas Farserotu	<b>Share class currency</b> EUR	<b>Domicile</b> Ireland
<b>Investment specialist(s)</b> Ruairidh Hill	<b>Fund assets</b> EUR 1218.4m	<b>Shares outstanding</b> 31,385,300
<b>Fund reference currency</b> EUR	<b>NAV</b> EUR 42.0512	<b>UK reporting status</b> Yes

## Key risks

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.

Since the instruments held by the Sub-Fund may be denominated in currencies other than the Base Currency, the Sub-Fund may be affected unfavourably by exchange control regulations or fluctuations in currency rates. For this reason, changes in currency exchange rates can affect the value of the Sub-Fund's portfolio and may impact the value of the Shares.

Due to the composition of the Benchmark, the Sub-Fund's portfolio may be more concentrated geographically than other Sub-Funds with more diversified portfolios and may, consequently, be subject to greater volatility than such Sub-Funds.

Exclusion of companies that do not meet certain ESG criteria from the Sub-Fund's investment universe may cause the Sub-Fund to perform differently compared to similar funds that do not have such a policy.

The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may under-perform its Benchmark.

Further information about risks can be found in the "Risk Information" section of the Prospectus.

## General Disclosures

Before investing, obtain and review the current prospectus, Key Investor Information Document (KIID), and any applicable local offering document. These documents, as well as the annual and semi-annual reports and the articles of incorporation, are available in English from your financial adviser, your J.P. Morgan Asset Management regional contact, the fund's issuer (see below) or at <https://am.jpmorgan.com/gb/en/asset-management/per/>. A summary of investor rights is available in English at <https://am.jpmorgan.com/lu/investor-rights>. J.P. Morgan Asset Management may decide to terminate the arrangements made for the marketing of its collective investment undertakings.

This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date. No provider of information presented here, including index and ratings information, is liable for damages or losses of any type arising from use of their information. No warranty of accuracy is given and no liability in respect of any error or omission is accepted.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy [www.jpmorgan.com/emea-privacy-policy](http://www.jpmorgan.com/emea-privacy-policy).

The Fund does not rely on external support for guaranteeing the liquidity of the Fund or stabilising the NAV per share. The Sub-Fund is rated by an external credit rating agency. Such rating is financed by the Sub-Fund.

The Sub-Fund has received approval of a derogation from the CSSF (Commission de Surveillance du Secteur Financier) to invest up to 100% of its assets in different money market instruments issued or guaranteed separately by certain organisations. The Sub-Fund intends to invest more than 5% of its assets in the organisations listed in the Prospectus.

For additional information on the sub-fund's target market please refer to the Prospectus.

The risk indicator is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class. The risk and reward category shown above is not guaranteed to remain unchanged and may change over time. A Share Class with the lowest risk rating does not mean a risk-free investment. See the Key Investor Information Document (KIID) for details.

The possible difference between the current ongoing charge as stated in this document and those mentioned in the KIID, is caused by the fact that the costs mentioned in the KIID are an estimate based on the actual costs incurred over the past year.

## Performance information

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees. Performance is shown based on the NAV which may not be the same as the market price of the ETF. Individual shareholders may realise returns that are different to the NAV based returns.

The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Indices do not include fees or operating expenses and you cannot invest in them.

The benchmark is for comparative purposes only unless specifically referenced in the Sub-Funds' Investment Objective and Policy.

## Regional Contact

JPMorgan Asset Management (UK) Limited Registered address: 25 Bank Street, Canary Wharf, London E14 5JP, United Kingdom. Authorised and regulated by the Financial Conduct Authority. Registered in England No. 01161446.

## Issuer

JPMorgan Asset Management (Europe) S.à r.l., 6, route de Trèves, L-2633 Senningerberg, Luxembourg. B27900, corporate capital EUR 10,000,000. The Sub-Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

## Definitions

**NAV** Net Asset Value of a fund's assets less its liabilities per Share.

**Correlation** measures the strength and direction of the relationship between movements in fund and benchmark returns. A correlation of 1.00 indicates that fund and benchmark returns move in lockstep in the same direction.

**Alpha (%)** a measure of excess return generated by a manager compared to the benchmark. An alpha of 1.00 indicates that a fund has outperformed its benchmark by 1%.

**Beta** measures a fund's sensitivity to market movements (as represented by the fund's benchmark). A beta of 1.10 suggests the fund could perform 10% better than the benchmark in up markets and 10% worse in down markets, assuming all other factors remain constant. Usually the higher betas represent riskier investments.

**Annualised volatility (%)** measures the extent to which returns vary up and down over a given period.

**Sharpe ratio** performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.

**Tracking error (%)** measures how much a fund's returns deviate from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

**Information ratio** measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by 2%

p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
