INVESTMENT MANAGER

Newton Investment Management: Newton aims to deliver outcomes for its clients across active equities, income, absolute return, multi-asset solutions, thematic and sustainable strategies. Its capabilities are driven by its global investment research platform which

harnesses a breadth of both fundamental and quantitative research.

INVESTMENT OBJECTIVE

The Fund aims to achieve capital growth over the long term (5 years or more).

PERFORMANCE BENCHMARK

The Fund will measure its performance against the FTSE World Europe ex UK TR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because, while it does not take ESG factors into account, it includes a broad representation of the asset class, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

HISTORIC YIELD (AS AT 30 SEPTEMBER 2023)

Share class	Yield
Sterling Income Shares	0.94%

Historic yield figures are calculated on the basis of dividing the total dividends paid by the fund over the last 12 months by the fund's current price. Historic yields are shown on a net basis, do not include the impact of any initial charge and investors may be subject to tax on distributions. Gross of taxes. Please note, dividend income from the fund's US investments will be subject to 30% withholding tax.

¹For Income Share Classes, Income Paid is the cash amount distributed, net of UK tax, for £1000 invested at the beginning of each period. This is for illustrative purposes only and does not take into account effects of inflation or other factors that may have a negative impact on an investment.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Emerging Markets have additional risks due to less-developed market practices.
- A fall in the value of a single investment may have a significant impact on the value of the Fund because it typically invests in a limited number of investments.
- The Fund follows a sustainable investment approach, which may cause it to perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities. The Fund will not engage in stock lending activities and, therefore, may forego any additional returns that may be produced through such activities.
- If this share class is denominated in a different currency from the base currency of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.
- For hedged share class the hedging strategy is used to reduce the impact of exchange rate movements between the share class currency and the base currency. It may not completely achieve this due to factors such as interest rate differentials.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
