The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon US Equity Income Fund

INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00BGV53H32)

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

Objectives and Investment Policy

OBJECTIVE

To achieve income and capital growth over the long term (5 years or more).

POLICY

The Fund will:

– invest at least 70% in equities (company shares) and equity-related securities issued by companies which at the time of purchase have a market capitalisation of US$2 billion or above.

The Fund may:

– gain exposure to equity markets through listed real estate investment trusts ("REIT's") and master limited partnerships ("MLP's");

– invest up to 30% of the portfolio in equity or equity-related securities of companies located in the US which are smaller in capitalisation or in equity or equity-related securities of companies which neither have their registered office in the US nor carry out a predominant part of their economic activities in the US;

– invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

– invest up to 10% in other collective investment schemes.

Benchmark: The Fund will measure its performance against the S&P 500 NR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset classes, sectors and geographical area in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the Fund expects to reflect many of the attributes of the Benchmark, the portfolio holdings of the Fund may deviate from the Benchmark where the Investment Manager considers it appropriate in pursuit of the Fund's investment objective.

OTHER INFORMATION

Treatment of income: net income generated will be retained within the Fund and reflected in the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

Risk and Reward Profile

Lower risk						Higher risk
Potentially lower reward						Potentially higher reward
1	2	3	4	5	**6**	7

We have calculated the risk and reward indicator, as shown above. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility). It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 6 because its historical value has shown relatively high volatility. With a Fund rating of 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

Objective/Performance Risk: There is no guarantee that the Fund will achieve its objectives.

Currency Risk: This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

Derivatives Risk: Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

Charges to Capital: The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.

Counterparty Risk: The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

High Yield companies risk: Companies with high-dividend rates are at a greater risk of not being able to meet these payments and are more sensitive to interest rate risk.

Geographic Concentration Risk: Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	**0.00%**
Exit charge	**None**

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing charge*	**0.82%**

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance fee	**None**

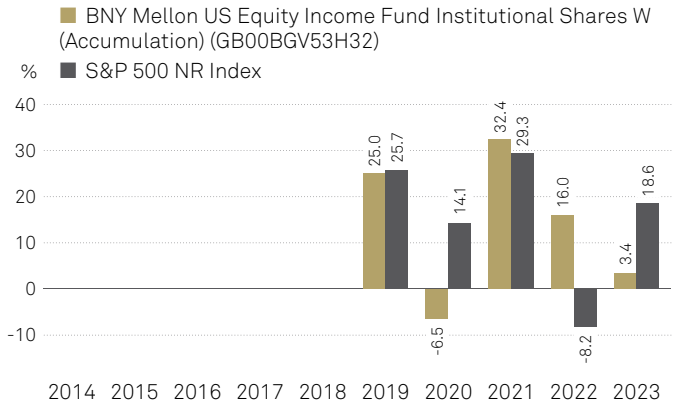

The ongoing charge is based on expenses calculated on 31 December 2023. This may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid when buying or selling units in another investment fund.

Currently BNY Mellon Fund Managers Limited is temporarily partially absorbing (capping) some of the expenses incurred by the Fund which is reflected in the ongoing charge figure stated here. There is no guarantee that BNY Mellon Fund Managers Limited will continue to cap the Fund's expenses and therefore the Fund's ongoing charge could increase significantly.

*It should be noted that the ongoing charge figure shown includes ongoing charges in respect of other open-ended investment funds but excludes ongoing charges from closed-ended funds held. The ongoing charges from closed-ended funds held were 0.00% as at 31 December 2023.

More information about charges is available in the "Fees and Expenses" section of the Prospectus.
