The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Saturna Sustainable ESG Equity HANzero™ UCITS ETF (the Fund) – Accumulating ETF Share Class

ISIN: IE00BMGRZP89

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

#### Objectives and Investment Policy

The Fund is actively managed with the aim to achieve capital growth over the medium to long term, by investing primarily in a global portfolio of companies that demonstrate sustainable characteristics.

The Fund will invest in companies which the Investment Manager considers demonstrate sustainable characteristics which means companies that are generally larger, more established, consistently profitable and financially strong which have in place robust policies in the areas of the environment, social responsibility and governance (ESG). The Investment Manager uses an internally developed ESG rating system as well as third party data to identify companies that the Investment Manager considers demonstrate these sustainable characteristics.

The Fund will generally invest in companies with market capitalisations greater than US\$5 billion. The Fund follows a quality investment style and the Investment Manager favours equities of established companies demonstrating sustainable characteristics, including but not limited to:

- financial strength;
- favourable ESG characteristics;
- identifiable competitive advantage; and
- attractive valuation.

The equity securities will primarily be common stocks and other equity related securities, being GDRs and ADRs, of companies that are listed and traded on the Regulated Markets referred to in Appendix 1 of the Prospectus. **Carbon Offsetting:** The Manager has appointed an independent intermediary to implement a mechanism to offset the carbon footprint of the Fund holdings, measured by reference to the greenhouse gas

emissions from Fund constituents (Scope 1) and indirect emissions due to the activities of the Fund constituents (Scope 2).

The Fund's estimated carbon footprint will be calculated each month by the Investment Manager, using 3<sup>rd</sup> party data provided to estimate the carbon to value for the Fund. An independent intermediary will purchase verified emission reduction certificates awarded to projects that decrease or avoid CO2 emissions according to a voluntary market standard. Where carbon offsetting has been achieved, the carbon credits acquired will be cancelled, thereby materializing the compensation. The Manager will set aside a portion of the ongoing charges figure described in the **Charges** section below to support sustainability initiatives as well as to offset the carbon footprint of the Fund.

**Dealing:** Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

**Distribution policy:** Income received by the Fund's investments will not be distributed in respect of the Shares of this class. Instead will be accumulated and reinvested on behalf of the shareholders of the Fund.

**Recommendation:** This Fund may not be appropriate for short-term investment.

**Currency:** The base currency of the Fund is US Dollar.

For full investment objectives and policy details, please refer to the supplement to the prospectus for the Fund.

#### Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (6) is due to the nature of the Fund's investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Investment risk:** Investment risk may be concentrated in specific sectors, countries, currencies or companies. This means that the Fund may be more sensitive to any localised economic, market, political or regulatory events.
- **Investment Strategy Risk:** Sustainable investing may mitigate security-specific risk however the screens used in connection with sustainable investing reduce the investable universe, which may limit the opportunities and may increase the risk of loss during market declines.
- **Active Management Risk:** The Fund's assets will be actively managed by the Investment Manager who will have discretion (subject to the Fund's investment restrictions) to invest the

Fund's assets in investments that it considers will enable the Fund to achieve its investment objective.

- **Emerging Market Risk:** The Fund may invest in companies based in emerging markets which may involve additional risks not typically associated with other more established markets such as increased risk of social, economic and political uncertainty.
- **Currency risk:** The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.

- Risks not covered by the indicator, but which are materially relevant to the Fund include:

- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund. It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.
