Hedged GBP Accumulation H Units (ISIN: IE00BJCXFP92)

a Sub-Fund of Muzinich Funds

This Fund is managed by Muzinich & Co. (Ireland) Limited, part of Muzinich & Co., Inc.

Objectives and Investment Policy

Investment Objective

The Fund seeks to protect capital and generate attractive returns which exceed those available from Benchmark Government Bonds.

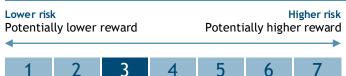

Investment Policy

The Muzinich Global Short Duration Investment Grade Fund invests primarily in investment grade debt securities, which are securities that represent an obligation to repay a debt along with interest. These bonds and notes will typically be priced in USD, Euro, GBP and other developed markets currencies, and issued by corporations globally.

The Fund will maintain a portfolio with an average investment grade Moody's or Standard & Poor's rating (or as deemed equivalent by the Investment Manager) of at least Baa2 or BBB, respectively. The Fund's investment portfolio will be diversified as to issuer and industry, with no single corporate issuer comprising more than 3% of the Fund's Net Asset Value. Investments in emerging markets are not expected to exceed 15% of the Fund's Net Asset Value.

The Investment Manager may also invest up to 5% of the Fund's Net Asset Value in sub-investment grade debt securities which the Investment Manager believes may enhance the overall returns of the Fund.

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free.

Why is this Fund in this category?

Your capital is at risk. The risk category shown above is a measure of how significant the rise and fall in the unit price (or that of a similar fund/benchmark) has been historically.

Key Risks

Credit Risk: Issuers of bonds held in the Fund may default on their obligations or have their credit rating downgraded, possibly resulting in a temporary or permanent decrease in the value of those bonds. Bonds in this Fund may be sub-investment grade, meaning that they may produce a higher level of income but also carry greater risk.

Liquidity Risk: The Fund may face difficulties in purchasing or selling its assets, although it endeavors to invest in liquid securities.

Interest Rate Risk: Fixed-rate bonds held in the Fund may fall in price with an increase in the prevailing level of interest rates in the economy. This risk usually decreases for bonds of lower rating and shorter durations.

Currency Risk: Fluctuations in exchange rates may cause the value of your investment to rise or fall. This unit class may be exposed to currencies other than the one in which the unit class is denominated. Although the Manager endeavours to protect the Fund against currency risk, such hedging, achieved through derivatives (see "Derivative Risk" below), is at the Manager's discretion and it may not be possible or practical to protect against all currency risk.

Derivative Risk: The Fund may use derivative instruments for hedging and for efficient portfolio management. This may result in gains or losses that are greater than the original amount invested. The Fund may also use derivatives to protect against potential risks as described under the other headings in this section. Derivative instruments may rise or fall in price or may be subject to risk of non-payment or non-delivery by a counterparty. There is no guarantee that derivatives will provide the anticipated protection.

Emerging Markets Risk: Emerging Markets may be riskier than more developed markets for a variety of reasons, including – but not limited to-increased political, social, and economic instability; heightened pricing volatility and reduced market liquidity; potentially small issue sizes; less transparent information standards; heightened currency exposure; reduced legal protections and enforceability; and less developed systems for transaction settlement and custody.

Operational Risk: Operational processes, including those relating to the safekeeping of assets, may fail, resulting in losses.

Additional information about these and other risks may be found in the prospectus and supplement for the Fund, both of which are available at www.muzinich.com and www.fundinfo.com.
