

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Man GLG European Alpha Income Fund Professional Accumulation Shares (Class C)

(ISIN:GB00BD9G3K01) Man GLG European Alpha Income Fund (the 'Fund') is a sub-fund of Man International ICVC (the 'Company').

Man Fund Management UK Limited, part of Man Group plc, is the Authorised Corporate Director.

Objectives and investment policy

- The Fund seeks to target positive returns through dividend income and long-term capital growth over 5 year rolling periods.
- The Fund invests at least 80% of its assets in shares of companies (either directly or indirectly) which are domiciled, listed or conduct a significant portion of their business in Continental Europe. In addition, the Fund may also invest in a number of other assets, including other transferable securities, units or shares in collective investment schemes (which may include those managed by the ACD or one or more of its associates) and money market instruments (securities used by governments, companies and others who wish to borrow money for short periods, usually less than a year). The Fund may also hold ancillary liquid assets such as cash and term deposits, and may use currency transactions, including forward currency contracts and currency swaps. The Fund may hold a significant portion (or all) of its value in cash and/or liquid assets where this is considered to be in the interests of the Fund and its investors.
- The Fund's currency exposure risk will be managed by entering into forward currency contracts. The Fund may use alternative and/or additional currency transactions and techniques to reduce or eliminate the risk of exposure to the movement of foreign currencies in currencies other than the base currency.
- The Fund is actively managed, meaning that the Investment Adviser will use its expertise to pick investments to achieve the Fund's objective, however the Investment Adviser uses the MSCI Europe ex UK Index (GBP, NDTR) as a guide in selecting assets for the Fund. The Investment Adviser seeks to invest in companies expected to provide strong income yield. The investment approach involves the selection of investments from an initial universe of over 1,300 companies eligible for investment. This universe is reduced to a list of around 100 potential investments which are expected to provide the strongest income yield. This is further reduced to a list of 50 potential investments following an analysis of the sustainability, persistence, yield and growth of each such company's dividend. Between 25-30 investments are then expected to be selected based on an analysis of the following in relation to each such company: (i) the industry in which it operates; (ii) its competitive position; (iii) business model research; (iv) financial strength testing; and (v) valuation assessment.
- The Fund is expected to hold a small number of assets (approximately 25-40 securities).
- The Investment Adviser may seek to incorporate non-financial factors and sustainability themes in the investment decision-making process. This may lead the Investment Adviser to exclude particular assets, and to apply environmental, social and governance ('ESG') factor screening.
- Use of financial derivative instruments ("FDI").* The Fund may use FDI (instruments whose prices are dependent on one or more underlying assets) to achieve the investment objective and for efficient portfolio management to hedge (a technique using investments to reduce risk) against anticipated movements in a market or security, or where it is more economically effective than directly holding the underlying asset.
- Benchmarks.* The Fund is managed with reference to a benchmark. The MSCI Europe ex UK (GBP, NDTR) is used for investment purposes (which can include construction of the Fund's portfolio universe and/or to assist with the management of risk in the Fund).
- Dealing.* Shares can be bought and sold on each Business Day, as detailed in the Fund prospectus.
- Investment Horizon:* This Fund may not be appropriate for investors who plan to withdraw their money within the next 5 years.
- Treatment of income.* Income earned on investments will be added to the value of investors' shares.

Risk and reward profile

- The lowest category does not mean 'risk free'.
- The risk and reward profile is not guaranteed and may change over time.
- Historical data may not be a reliable indication for the future.
- The risk category for this share class is 6 as funds of this nature engage in strategies that typically have a high volatility. The calculation is based on the historical volatility of the Fund's performance. Where there is insufficient Fund performance the calculation is based on either the historical volatility of a relevant benchmark for the investment strategy or the manager's Value at Risk limit for the Fund. Please refer to the prospectus for further information relating to the Value at Risk.

The following risks may not be fully captured by the risk and reward profile:

- Liquidity characteristics of non-exchange listed investments can be irregular, and may result in higher than anticipated costs to liquidate the investment.

- The Fund will be exposed to credit risk on counterparties with which it trades in relation to on-exchange traded instruments such as futures and options and where applicable, 'over-the-counter' ("OTC", "non-exchange") transactions. OTC instruments may also be less liquid and are not afforded the same protections that may apply to participants trading instruments on an organised exchange.
- A limited number of investments may be held which can increase the volatility of performance.
- The Fund may invest in financial derivative instruments ("FDI") (instruments whose prices are dependent on one or more underlying asset) typically for hedging purposes. The use of FDI involves additional risks such as high sensitivity to price movements of the asset on which it is based. The use of FDI may multiply the gains or losses.
- The Fund is a specialist geographic regional fund which, as a result, may carry greater risk than a more internationally diversified portfolio.
- The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets.
- The value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested.
- There is no guarantee that the Fund will achieve its investment objective.

A complete description of risks is set out in the prospectus section entitled 'Risk Factors'.

Charges

The charges you pay are used to pay the costs of running the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.90%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are maximum figures and in some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the year ending 31/05/2022.

This figure may vary from year to year. It excludes performance fees (where applicable) and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another sub-fund.

If you switch between different sub-funds of the Company you may pay a switching charge on your subscription to the new sub-fund. This charge may be an amount equal to the entry charge of the new sub-fund.

For detailed information on charges and fees please see the 'Fees and Expenses' section of the prospectus.

Past performance

- The Fund was authorised in 2017. This share class was launched on 22 December 2017.
- The past performance chart shows the annual performance, calculated in GBP, for each full calendar year since launch.
- Please be aware that past performance is not a reliable indicator of, or guide to, future performance.
- NDTR: Net Dividend Total Return Benchmark which reflects the value of price movements as well as reinvested dividends net of the appropriate country withholding tax.
- The Fund is not an index-tracker and does not seek to track the benchmark shown in the past performance chart. The benchmark performance data is shown for performance comparison purposes only.

Practical information

- The Fund is a sub-fund of the Company which is an umbrella scheme comprising a number of sub-funds.
- The Bank of New York Mellon (International) Limited is the depositary of the Company. The Fund's assets are treated as being segregated from the assets of other sub-funds of the Company.
- Additional information related to the Fund is located in the prospectus which is produced in an official language of the jurisdictions in which the Fund is registered for public sale. The prospectus is available together with the most recent financial statements, information on other share classes and the latest prices of shares free of charge at www.man.com.
- The Fund is subject to taxation legislation in the UK, which may have an impact on your personal tax position as an investor in the Fund.

Man Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

- You may switch shares in the Fund for shares in any other sub-fund of the

Company. Further information and provisions are in the prospectus.

- Details of Man Fund Management UK Limited's Remuneration Policy are available at www.man.com/mfm-remuneration-policy, including: (a) a description of how remuneration and benefits are calculated; and (b) the identity of persons responsible for awarding remuneration and benefits. A paper copy of these details may be obtained, free of charge, at Man Fund Management UK Limited at Riverbank House, 2 Swan Lane, London, EC4R 3AD, United Kingdom.
- MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, endorsed, reviewed or produced by MSCI. None of the MSCI data is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such.
