US Small & Mid-Cap Equity

a sub-fund of Schroder International Selection Fund SICAV

Class C Accumulation USD (LU0205193807)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

<p>Objectives</p> <p>The fund aims to provide capital growth in excess of the Russell 2500 Lagged (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of small and mid-sized US companies.</p> <p>Investment policy</p> <p>The fund is actively managed and invests at least two-thirds of its assets in equities of small and mid-sized US companies. These are companies which, at the time of purchase, are considered to be in the bottom 40% by market capitalisation of the US equities market.</p> <p>The fund invests in a broad range of small and mid-sized US companies. The investment approach focuses on three types of US companies; companies that the investment manager believes demonstrate strong growth trends and improving levels of cash; companies which the investment manager believes generate dependable earnings and revenues; and companies that the investment manager believes are undergoing positive change that is not being recognised by the market. By doing so, the investment manager believes that we can reduce overall risk and improve returns for our investors over the medium to long term.</p> <p>The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).</p> <p>The fund may use derivatives with aim of reducing risk or managing the fund more efficiently.</p> <p>Benchmark</p>	<p>The fund's performance should be assessed against its target benchmark being to exceed the Russell 2500 Lagged (Net TR) Index and compared against the Morningstar US MidCap Equity Category and the S&P Mid Cap 400 Lagged (Net TR) Index. The fund's investment universe is expected to overlap materially with the components of the target benchmark and the S&P Mid Cap 400 Lagged (Net TR) Index. The comparator benchmarks are only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark or the S&P Mid Cap 400 Lagged (Net TR) Index. The benchmark (s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.</p> <p>Other Information</p> <p>The fund maintains a higher overall sustainability score than the S&P Mid Cap 400 Lagged (net TR) Index, based on the investment manager's rating criteria. The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage, https://www.schroders.com/en/lu/private-investor/gfc</p> <p>Dealing frequency</p> <p>You may redeem your investment upon demand. This fund deals daily.</p> <p>Distribution policy</p> <p>This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.</p>

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainability risk: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the

investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Smaller companies risk: Smaller companies generally carry greater liquidity risk than larger companies, meaning they are harder to buy and sell, and they may also fluctuate in value to a greater extent.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Charges

One-off charges taken before or after you invest	
Entry charge	1.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.13%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance

Please note that a new comparator benchmark was added on 1 August 2021. The past performance in the above table is based on the fund's benchmarks (Target benchmark: Russell 2500 Lagged (Net TR) index. Comparator benchmark: Morningstar US Mid-Cap Equity Category) in place prior to this date. Going forward, this table will show past performance from this date based on the new benchmarks (Target benchmark: Russell 2500 Lagged (Net TR) index. Comparator benchmarks: Morningstar US Mid-Cap Equity Category and S&P Mid Cap 400 Lagged (Net TR) Index).

- C Accumulation USD (LU0205193807)
- Russell 2500 Lagged (Net TR) Index
- Morningstar US Mid-Cap Equity Category
