The fund is managed by Artemis Fund Managers Limited.

ISIN:	GB00B75BPF64
Class:	Class R distribution units, GBP

This key investor information document is accurate as at 15 February 2024.

### OBJECTIVES AND INVESTMENT POLICY

<b>Objective</b>
To generate monthly income, combined with some capital growth over a five year period.
<b>Investment policy</b>

#### What the fund invests in

- 40% to 80% in bonds (of any credit quality).
- 20% to 60% in company shares.
- The fund may also invest in near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

#### Use of derivatives

The fund may use derivatives for efficient portfolio management purposes to:

- reduce risk
- manage the fund efficiently.

#### Where the fund invests

- Globally

#### Industries the fund invests in

- Any

#### Other limitations specific to this fund

- None

#### Investment strategy

- The fund is actively managed.
- Bond returns are principally driven in four ways:
  - investing globally in government bonds, Investment Grade and High Yield bonds
  - Adjusting the portfolio duration
  - Allocation between different credit ratings and different economic sectors
  - Security selection including different levels of seniority
- When investing in corporate bonds, the manager seeks to invest in profitable and resilient companies with a robust business model offering an attractive risk-reward profile.
- When investing in company shares, the manager selects companies which exhibit strong levels of free cashflow generation (cash that is left over after a company pays for its operating and capital expenditures which can be returned to investors through dividends and share buybacks) relative to other companies in the market, dividend distribution and dividend growth.

#### Benchmarks

##### IA Mixed Investment 20-60% Shares NR

A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

#### Other information

**Dealing frequency:** Normally Monday to Friday except UK public holidays and non-dealing days. Visit [www.artemisfunds.com/non-dealing-days](http://www.artemisfunds.com/non-dealing-days) for more information. Instructions received before 12 noon UK time will be processed at 12 noon on the same day.

**Distribution policy:** This is a distribution class. Any income this fund receives will be paid out to investors every month.

### RISK AND REWARD PROFILE

• The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.

• The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.

• A risk indicator of “1” does not mean that the investment is “risk free”.

Risk indicator number is accurate as at: 31 December 2023.

**The risk indicator may not fully take into account the following risks and the following may affect fund performance:**

**Market volatility risk:** The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

**Currency risk:** The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value

**Bond liquidity risk:** The fund holds bonds which could prove difficult to sell. As a result, the fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.

**Income risk:** The payment of income and its level is not guaranteed.

**Emerging markets risk:** Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.

**Credit risk:** Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.

**Higher-yielding bonds risk:** The fund may invest in higher-yielding bonds, which may increase the risk to capital. Investing in these types of assets (which are also known as sub-investment grade bonds) can produce a higher yield but also brings an increased risk of default, which would affect the capital value of the fund.

**Charges from capital risk:** Because one of the key objectives of the fund is to provide income, the fund charges are taken from capital. This may constrain capital growth or erode capital. Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.
