BNY MELLON
INVESTMENT MANAGEMENT

Absolute Insight Fund

CLASS AP (ISIN: GB00B5MF4S35)

a sub-fund of BNY Mellon Managed Funds II. This Fund is managed by BNY Mellon Fund Managers Limited

Objectives and Investment Policy

OBJECTIVE

The Fund seeks to deliver a positive absolute return in all market conditions on a rolling 12 month basis (meaning a period of 12 months, no matter which day you start on). In addition, the Fund aims to match or exceed SONIA (90-day compounded) on a rolling 12 month basis after fees and to deliver cash (SONIA (90-day compounded)) +4% p.a. (before fees) on a rolling annualised five year basis (meaning a period of five years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

POLICY

The Fund will:

- invest primarily (meaning at least 75%) in shares of the subfunds within the Absolute Insight Funds p.l.c. ("AIF"), an Irish umbrella UCITS investment company the assets of which are also managed by the Investment Manager and/or in shares or units of other collective investment schemes operated by the ACD or an associate of the ACD and managed by the Investment Manager; and
- gain exposure to a wide range of asset classes such as company shares (i.e. equities) and similar investments, bonds and similar debt investments & derivatives indirectly through investment in other collective investment schemes.

Benchmark: The Fund will measure its performance after fees against SONIA (90-day compounded) on a rolling 12 month basis (the

"12 month Benchmark") and before fees against cash (SONIA (90-day compounded)) +4% p.a. on a rolling annualised five year basis (the "5 year Benchmark") as target benchmarks.

SONIA is a nearly risk-free rate meaning no bank credit risk is included, the rate can rise or fall as a result of central bank policy decisions or changing economic conditions. The Fund will use the 12 month Benchmark as a target for the Fund's performance to match or exceed over a rolling 12 month period as it is representative of cash; and the 5 year Benchmark as a target for the Fund's performance to match over a rolling annualised five year period because it is consistent with the risk taken in the Fund.

The Fund is actively managed, which means the Investment Manager has discretion to invest in the investments described in the investment objectives and policies as disclosed in the Prospectus.

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 3 because its historical value has shown moderately low volatility. With a Fund of category 3, you have a moderately low risk of losing money but your chance for gains is also moderately low.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Performance Aim Risk:** The performance aim is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for returns to vary significantly.
- **Manager of Managers Risk:** Investing significantly in collective investment schemes will subject the Fund to risks of these other funds.
- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
