

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Ashmore SICAV Emerging Markets Total Return ESG Fund: GBP Z (Acc)

A sub-fund of Ashmore SICAV

ISIN: LU1934755403

Management Company: Ashmore Investment Management (Ireland) Limited

## Objectives and Investment Policy

The Fund's objective is to maximise total return by investing in a range of diversified transferable debt securities and/or other liquid financial assets. The Fund is actively managed by Ashmore Investment Management Limited and references a blended benchmark comprised of 50% JP Morgan EMBI 25% JP Morgan GBI-EM GD and 25% JP Morgan ELMI+ (the "Benchmark") as part of its investment process for the purpose of comparing its performance against that of the benchmark. The Investment Manager has full discretion over the composition of the portfolio of the Fund. While the Fund may hold assets that are components of the Benchmark, it can invest in such components in different proportions and can hold assets which are not components of the Benchmark therefore returns may deviate materially from the performance of the specified reference Benchmark.

The Fund aims to be invested in Emerging Market transferable debt securities issued by sovereigns, quasi-sovereigns and public and private sector corporate entities denominated in local currencies and in hard currencies and also investing in financial derivative instruments and related synthetic structures or products focusing on issuers satisfying environmental, social and corporate-governance criteria ("ESG Criteria"). The ESG criteria and the ESG Scoring Threshold are determined by the Investment Manager, with investments dependent on whether they satisfy ESG Criteria, such as Industry exclusions, and minimum ESG scoring thresholds (see the prospectus for further information). The Fund shall invest exclusively in sovereigns, quasi-sovereigns and corporate issuers which satisfy the ESG Criteria based on the Investment Manager's ESG scoring threshold.

The Fund may not invest more than 25% of its net assets in a single Emerging Market. The Fund may not invest more than 25% of its net assets in investments denominated in a single local currency. The Fund

may not invest more than 35% of its net assets in corporate entities. Direct investments in securities traded on the China Securities Market will be made through CIBM Direct Access. The Fund may also be invested in financial instruments whose value derives from the value and characteristics of one or more underlying assets (derivatives) and engage in certain techniques for hedging purposes and efficient management of assets.

The Fund may not grant loans or guarantees in favour of a third party.

The Fund primarily uses an active, macro top-down approach to investment management. The Sub-Fund may, on an ancillary basis, hold cash and invest in Money Market Instruments including in money market UCITS or UCIs denominated in US\$ or other currencies.

The reference currency of the Fund is USD. The Sub-Fund is considered as falling within the scope of Article 8 of the EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). More information about the sustainable-related characteristics of the Sub-Fund is available in the dedicated SFDR Annex of the Prospectus.

Transaction costs may have a material impact on performance, depending on factors such as market liquidity.

Any income from your investments will be reinvested on a monthly basis, unless you request otherwise in writing.

You can buy or sell shares in this Fund on any bank business day in both Luxembourg and London (excluding Saturdays and Sundays), or such other days as the board of directors shall determine from time to time by submitting an application form to the Administrator before the dealing deadline. For full investment objectives and policy details, please refer to section 2 of the Fund's prospectus available at [www.ashmoregroup.com](http://www.ashmoregroup.com).

## Risk and Reward Profile

Lower risk ← Higher risk  
Potentially lower reward Potentially higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The above risk and reward indicator is calculated using the guidelines set out by the CESR (Committee of European Securities Regulators). Other risks which are not part of the calculation include the following:

**Credit risk:** The issuer of a financial asset held within the Fund or a counterparty may not pay income or capital to the Fund when due.

**Liquidity risk:** If there are insufficient buyers or sellers of the underlying instruments, it could affect the ability to value and trade the assets.

**Counterparty risk:** The risk that parties with whom the Fund contracts for the purpose of making investments (the "counterparty") and, where relevant, the entity in the Emerging Market with whom the counterparty has made arrangements to ensure an on-shore presence in the Emerging Market may not meet their contractual obligations.

**Operational risk:** The risk of loss resulting from inadequate or failed procedures, systems or policies.

**Custody risk:** The transaction and custody risk of dealing in Emerging Market investments due to the less developed nature of some emerging markets.

**Interest rate risk:** Changes in interest rates can result in positive or negative fluctuations in the value of the assets held by the Fund.

**Currency risk:** The Fund invests in different currencies. Changes in exchange rates will affect the value of the Fund.

**Derivatives:** The Fund may also invest in derivatives whose value derives from the value and characteristics of one or more underlying asset. These derivatives may be used for hedging (against currency risk, for example) or as investments. Their use may increase the risk of

losses as well as enhance potential gains compared to funds that do not use derivatives.

**Emerging Markets** carry risks as well as rewards. The Fund invests in Emerging Markets, which may be more volatile than more mature markets and the operational risks of investing are higher than in developed markets. The value of your investment could go down as well as up. In extreme circumstances this could result in a total loss of your investment.

Because of the risks involved, investment in the Fund is only suitable for investors who have experience of volatile products, understand the risks involved and are able to bear the loss of a substantial portion or even all of the money they invest in the Fund. As a result of these risks investors are strongly advised to seek independent professional advice on the implications of investing in the Fund.

**China risk:** the securities markets in China generally and the China bond markets in particular are both at a developing stage and the market capitalisation and trading volume may be lower than those in more developed financial markets. Market volatility and potential lack of liquidity due to low trading volumes in China's debt markets may result in prices of securities traded on such markets fluctuating significantly, and may result in substantial volatility.

**CIBM Direct Access Risk:** CIBM Direct Access rules are relatively new and untested, there are no assurances that the rules and regulations will not be abolished in future, the Fund may, as a result, be adversely affected as a result of any such change or abolition.

Because of the risks involved, investment in the Fund is only suitable for investors who have experience of volatile products, understand the risks involved and are able to bear the loss of a substantial portion or even all of the money they invest in the Fund. As a result of these risks investors are strongly advised to seek independent professional advice on the implications of investing in the fund.

Further information on risks may be found under the "Risk Factors" section of the Fund's prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00 %
Exit charge	No charge
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the Fund over a year	
Ongoing charges	1.51 %
Charges taken from the Fund under certain specific conditions	
Performance fee	No charge

The entry charge shown is the maximum that might be taken out of your money before it is invested. In some cases you may pay less or no entry charge at all. Please ask your financial adviser or distributor to confirm your actual entry charge.

The ongoing charges figure is based on expenses for the period ending 31 December 2022. This figure may vary from year to year and excludes portfolio transaction costs. The Fund's annual report for each financial year will include detail on the exact charges made.

For more information on charges, please refer to the Fund's prospectus which is available at [www.ashmoregroup.com](http://www.ashmoregroup.com).
