Directors' Report

The Directors submit their report, together with the financial statements, of the consolidated entity (referred to hereafter as the 'Group') consisting of Seeing Machines Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the six-month period ended 31 December 2022 ("half-year"). The Group's functional and presentation currency is US dollars (US\$).

Directors

The names of the Directors of Seeing Machines Limited in office during the half-year and until the date of this report are listed below. All Directors were in office for the entire period covered by the report unless otherwise stated.

Kate Hill Non-Executive Director and Chair

Paul McGlone Executive Director and Chief Executive Officer (CEO)

Yong Kang (YK) Ng
Gerhard Vorster
John Murray
Michael Brown
Non-Executive Director

Review of Operations

Overview

The Company achieved a record result for the six months to 31 December 2022 as well as securing significant additional investment through a Convertible Note. Revenue increased by 54% and cash balances increased to US\$52.2m with a remaining US\$17.5m of funding available.

As a result of the increasing proportion of revenue and funding being derived in US dollars, the Company has changed the functional currency of the parent entity of the group, Seeing Machines Limited, to US dollars.

Financial Results

The Company's total sales revenue for H1 FY2023 (excluding foreign exchange gains and finance income) increased by 54% to US\$24.4m (H1 FY2022: US\$15.8m).

Business unit	31 Dec 2022	31 Dec 2021	Variance
	US\$'000	US\$'000	%
OEM	14,037	3,832	268%
Aftermarket	10,346	11,982	(14%)
Sales Revenue	24,383	15,814	`54%

OEM revenue more than doubled compared to the previous corresponding period in line with the early stage ramp up of vehicle production for a number of Automotive OEM programs. Royalty revenue, derived from installation of Seeing Machines' Driver Monitoring System (DMS) technology, increased by 102% to US\$3.1m compared to the same period last year (H1 FY2022: US\$1.5m). In addition to production royalties, revenue of US\$5.4m from license fees was earned from the exclusive collaboration agreement with Magna (2021: nil). The growth in royalty revenues in the OEM business has resulted in the revenue mix moving to a greater proportion of higher margin revenue streams, which is expected to continue as Automotive programs become the dominant source of revenue for this business unit.

Limited hardware supply in the half-year restricted potential revenue growth in the Aftermarket business. Guardian hardware sales generally constitute a majority of Aftermarket revenue, however, they were limited to 1,536 units compared to 4,285 units for the prior corresponding period resulting in an overall revenue decline in the Aftermarket business for the half-year. Supply of the reengineered Guardian 2 units commenced towards the end of the period and will enable pent-up demand to be met for the remainder of the financial year. Connected Guardian units increased to 46,018 units in December 2022 representing 15% growth from 39,892 in June 2022 and 25% annual growth from December 2021. As a result of this growth monitoring services revenue increased by 7% to US\$5.2m for the half-year, compared to US\$4.9m for the same period last year, continuing the accumulation of recurring revenue from the Guardian connections.

The Company continued to invest in its core technology development to further strengthen its competitive moat, rapidly expand features and leverage systems approach across global OEM and Aftermarket industries. As a result, Seeing Machines incurred total research and development expenses of US\$17.2m during the six-months ended 31 December 2022 (2021: US\$13.2m), of which US\$11.1m (2021: US\$8.6m) was capitalised.

Directors' Report (continued)

Customer support and operations cost categories increased to US\$3.3m (2021: US\$3.2m) and US\$5.4m (2021: US\$4.2m) respectively in line with strengthening of business pursuit and emerging markets activities to support increased pipeline and channel market expansion.

On 4 October 2022, Seeing Machines received funding of US\$47.5m from Magna International in the form of a non-transferable 4-year convertible note maturing in October 2026 (the "Convertible Note"). Details of the Convertible Note can be found in Note 12 to the Financial Statements. The proceeds of the Convertible Note are being used to meet technology demands, for general working capital and corporate purposes, as well as to strengthen the Company's balance sheet so that it is fully funded to deliver on its current business plan.

Cash and cash equivalents at 31 December 2022 totalled US\$52.2m (2022: US\$40.4m) with an additional US\$17.5m being available as part of an undrawn Convertible Note facility.

We highlight this report is unaudited. There is no requirement for the interim financial statements to be subject to review by the external auditor.

Position Holders During the Period

Chief Executive Officer

The Group's Chief Executive Officer as at the date of this report is Paul McGlone.

Company Secretary

As at the date of this report the Company Secretary is Susan Dalliston.

Employee Numbers

At 31 December 2022 the Group had 329 full-time employees (266 employees at 30 June 2022).

Principal Activities

The Group's principal activities during the half-year were:

- Developing, selling and licensing products, services and technology to detect and manage driver fatigue
 and distraction, including continued market development to secure sustainable channels to market for the
 product;
- Entering commercial agreements with partners for the development, manufacturing and sale of products into key target markets; and
- Research and development of the Company's core vision processing technologies to support the development and refinement of the Company's products.

Changes in State of Affairs

During the half-year there was no significant change in the state of affairs of the Group other than those referred to elsewhere in this report and in the financial statements or notes thereto.

Environmental Regulations

The Group holds no licenses issued by relevant Environmental Protection Authorities and there have been no known breaches of any environmental regulations.

Directors and Officers Insurance

During the half-year, the Company paid a premium in respect of a contract insuring the Directors of Seeing Machines Limited (and its wholly owned subsidiaries), the Company Secretary, and all executive officers of those companies against a liability incurred as such a Director, secretary, or executive officer to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Directors' Report (continued)

Non-Audit Services

PwC have not rendered any non-audit services during the half-year.

Signed at Canberra this in accordance with a resolution of the Directors made pursuant to section 298(2) of the *Corporations Act 2001*.

On behalf of the Board

Paul McGlone

Executive Director & Chief Executive Officer

Canberra 6 March 2023

1 Corporate information

Seeing Machines Limited (the "Company" or the "Group") is a limited liability company incorporated and domiciled in Australia and listed on the AlM market of the London Stock Exchange. The address of the Company's registered office is 80 Mildura Street, Fyshwick, Australian Capital Territory, Australia.

Seeing Machines Limited and its subsidiaries (the "Group") provide operator monitoring and intervention sensing technologies and services for the automotive, mining, transport and aviation industries.

The interim consolidated financial report of the Group (the "interim financial report") for the six-month period ended 31 December 2022 was authorised for issue in accordance with a resolution of the Directors on 3 March 2023.

2 Basis of preparation and changes to the Group's accounting policies

(a) Basis of preparation

The interim financial report for the six-month period ended 31 December 2022 has been prepared in accordance with AASB 134 Interim Financial Reporting in order to fulfil the reporting requirements of Rule 18 of the London Stock Exchange's AIM Rules for Companies issued July 2016.

The interim financial report does not include all the information and disclosures required in the annual financial report and should be read in conjunction with the Group's annual consolidated financial statements as at 30 June 2022. The interim financial report has also been prepared on a historical cost basis, except for derivative financial instruments which have been measured at fair value.

There is no requirement for the interim financial report to be subject to audit or review by the external auditor and accordingly no audit or review has been conducted.

(b) Accounting policies

The accounting policies applied are consistent with those of the consolidated financial statements for the year ended 30 June 2022, except for the change in accounting policy in relating to change in presentation currency from Australian Dollars ("AU\$") to United States Dollars ("US\$"), as set out below:

Effective 1 July 2022, the Group's functional currency has changed from AU\$ to US\$. This change in functional currency is primarily indicated by the following factors:

- (i) Sales and cash inflows: The currency that mainly influences sales prices for goods and services. This will often be the currency in which sales prices for goods and services are denominated and settled. During the financial year ended 30 June 2022, approximately 65% of the Group's revenue were denominated in US\$. This proportion of revenue denominated in US\$ is expected to significantly increase for the financial year ending 30 June 2023 and thereafter. Therefore, change in functional currency for periods commencing 1 July 2022 is considered appropriate.
- (ii) Financing Activities: The Group's share capital is denominated in Great Britain Pounds ("GBP") as the Company's shares are listed on the AIM market of the London Stock Exchange. However, a significant funding arrangement and a significant exclusive collaboration arrangement, totalling to US\$ 65 million with Magna International were in the final stages of execution on 1 July 2022. These arrangements were executed on 4 October 2022. Considering the materiality of these arrangements to the Group's financial position, together with the stage of execution on 1 July 2022, change in functional currency to US\$ for periods commencing 1 July 2022 is considered appropriate.
- (iii) Expenses and cash outflows: The Group's expenses are primarily comprised of salaries and wages for employees who are mostly domiciled in Australia and these expenses are incurred and settled in AU\$. However, majority of other expenses for the Group are incurred and settled in US\$. During the financial year ended 30 June 2022, approximately 30% of the Group's expenses were denominated in US\$. This proportion of expenses denominated in US\$ is expected to significantly increase for the financial year ending 30 June 2023 and thereafter. Further, all of the Group's inventories are purchased and denominated in US\$, with the Group having significant commitments to make these purchases in US\$. Therefore, change in functional currency for periods commencing 1 July 2022 is considered appropriate.

The change in functional currency will significantly reduce the volatility of the Group's earnings due to foreign exchange movements, in particular due to translation of foreign currency balances.

2 Basis of preparation and changes to the Group's accounting policies (continued)

(b) Accounting policies (continued)

Applying the guidance provided in AASB 121: The Effects of Changes in Foreign Exchange Rates ("AASB 121"), the change in functional currency to US\$ has been effected on 1 July 2022 using the following procedures:

- i) All items of assets and liabilities were translated from AU\$ to US\$ using the US\$/ AU\$ exchange rate prevailing on the date of change, i.e. start of 1 July 2022. The exchange rate used was US\$ 0.68879/ AU\$. As all assets and liabilities are translated using the exchange rate at the date of change, the resulting translated amounts for non-monetary items are treated as their historical cost.
- ii) Equity items were translated from AU\$ to US\$ using the historical rate at the date of the transactions.
- iii) Resulting differences in the historical rates and rate on date of change is recognized in the Foreign Currency Translation Reserve.

In line with the change in functional currency from AU\$ to US\$, and to provide investors and other stakeholders a clearer understanding of the Group's performance over time, the Directors have elected to change the Group's presentation currency from AU\$ to US\$. The change in presentation currency is a voluntary change which is accounted for retrospectively and comparatives in the interim financial report have been restated accordingly. Applying the guidance provided in AASB 121, the Group's interim financial report has been restated to US\$ using the procedures outlined below:

- Interim Consolidated Statement of Comprehensive Income and Interim Consolidated Statement of Cash Flows have been translated into US dollars using average foreign currency rates prevailing for the relevant period.
- ii) Assets and liabilities in the Interim Consolidated Statement of Financial Position have been translated into US\$ at the closing foreign currency rates on the relevant balance sheet dates.
- iii) The equity section of the Interim Consolidated Statement of Financial Position, including foreign currency translation reserve, retained earnings, share capital and the other reserves, have been translated into US\$ using historical rates.
- iv) Earnings per share and dividend disclosures have also been restated to US\$ to reflect the change in presentation currency.

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory for 31 December 2022 reporting periods and have not been early adopted by the Group. These standards, amendments or interpretations are not expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

3 Segment information

a. Segment revenue based on operating segment

The following table presents revenue and net loss information for the Group's operating segments for the six-month periods ended 31 December 2022 and 2021, respectively:

	Segment Revo	enue	Segment Loss

Total revenue from external customers		24,383	15,814

The revenue information above is based on the locations of the customers.

4 Research and development expenses

Research and development expense relates to ongoing investment in the Group's core technology.

The Group incurred total research and development expenses of US\$17,236,000 during the six-months ended 31 December 2022 (2021: US\$13,191,000 (*Restated*)), of which US\$11,146,000 (2021: US\$8,623,000 (*Restated*)) were capitalised.

As part of the assessment of research and development expenses at 30 June 2022, total costs of US\$16,558,000 (Restated) were capitalised for the year ended 30 June 2022, of which US\$8,623,000 (Restated) pertained to the six-month period ended 31 December 2021.

5 Cash and cash equivalents

For the purpose of the interim consolidated statement of cash flows, cash and cash equivalents are comprised of the following:

Opening balance	-	-
Drawdown during the period	30,000	-
Adjustment of arrangement fees to effective interest rate	(1,202)	-
Reclassification to Financial liability at fair value through profit or loss	(6,585)	-
Interest amortised during the period	742	-
Closing balance at amortised cost	22,955	

On 4 October 2022, Seeing Machines received funding of US\$47.5m from Magna International in the form of a non-transferable 4-year convertible note maturing in October 2026 (the "Convertible Note"). The Convertible Note can be drawn down in two transches across the 4-year term. The Convertible Note has an all-in yield of 8%, inclusive of fees. The Convertible Note contains standard covenants, and anti-dilution provisions. The interest due at the end of the facility can be paid in cash or converted into equity at Seeing Machines' election.

The first tranche ("Convertible Note – Tranche 1) of US\$30m, was drawn on 5 October 2022 and the remainder is available until December 2024. The Convertible Note – Tranche 1 is valued at amortised cost in accordance with AASB 9 Financial Instruments ("AASB 9") and has an effective interest rate as per AASB 9 of 14.4643% per annum inclusive of all fees.

Magna may elect to convert the principal and at Seeing Machines' election, interest outstanding under the Convertible Note at any time during its term, up to a maximum of 349,650,350 shares which, when added to Magna's existing shareholding in the Company, will represent approximately 9.9% of the fully diluted share capital of the Company. The conversion will be at a price of 11 British pence per share. The option provided to Magna is deemed to be an embedded derivative and is accounted for as a financial liability at fair value through profit or loss. Refer to Note 13 below.

LTI 2021 - Performance rights or share options offers - Executive and key staff

From 1 July 2015, senior staff and other key staff are offered long term incentive (LTI) performance rights or share options. Under this structure, the staff are only able to exercise the rights, and have new ordinary shares issued to them, if any performance, market and vesting conditions are met. These conditions typically include a performance condition requiring the staff member to achieve a minimum "meets expectations" rating and some rights have included a market condition in the form of a minimum Target Share Price (TSP). The vesting period ranges from 9 months to 5 years from the end of the relevant financial year or grant date. Performance rights or options are often offered as part of the annual remuneration review and may be offered at other times. Any offer of performance rights or options requires Board approval and, when granted, is announced to the market.

In November 2021 the Company awarded a total of 64,996,414 performance rights in respect of ordinary shares to Executive and key staff to be issued at nil cost.

14,845,702 of the performance rights under the LTI have been awarded in recognition of the past achievement of the Company's objectives in FY2021. The rights were valued at the spot rate of the shares at grant date, and the value is amortised over the vesting period. The rights vest annually over 3 years in equal tranches with the first vesting date being 1 July 2022 and require the employee to remain continuously employed by the Company until each relevant vesting date. If an employee leaves before the rights vest and the service condition is therefore not met, the rights lapse.

In some cases, for 'good leavers', determined on a discretionary basis by management, options are prorated for service in the current period and that portion are vested on termination, and the remaining rights are cancelled.

The remaining 50,150,712 performance rights have been granted under Key Person Agreements in respect of a total of 27 nominated key people. These people have been identified as having key roles directly related to the Company's long-term success and the allocation of accelerated performance rights has been implemented by the Board to successfully retain these employees and affirm successful delivery on a range of projects and customer commitments. These awards have an accelerated grant with delayed vesting taking place on 1 July 2024 and require the employee to remain continuously employed by the Company until the vesting date. If an employee leaves before the rights vest and the service condition is therefore not met, the rights lapse.

In October 2022 the Company awarded a total of 11,151,003 performance rights in respect of ordinary shares to Executive and key staff to be issued at no cost. These rights have been awarded in recognition of the past achievement of the Company's objectives in FY2022. The rights were valued at the spot rate of the shares at grant date, and the value is amortised over the vesting period. The rights vest annually over 3 years in equal tranches with the first vesting date being 1 July 2023 and require the employee to remain continuously employed by the Company until each relevant vesting date. If an employee leaves before the rights vest and the service condition is therefore not met, the rights lapse.

There is no cash settlement of the rights. The Group accounts for the Executive Share Plan as an equity-settled plan.

18 Related party disclosures

The following table provides the total amount of transactions that have been entered into with related parties during the six-month period ended 31 December 2022 and 2021:

		Balance 1-Jul Thousands	Granted as Remuneration Thousands	Acquired or sold for cash Thousands	Balance 31-Dec Thousands
Director shares: Directors' securities	2022	6,552	_	_	6,552

19 Commitments

As at 31 December 2022, the group had commitments of US\$15,289,000 (31 December 2021: US\$23,673,000 (*Restated*)) relating to the manufacturing contract for the Group's Guardian 2.1 product for the period January 2023 to June 2023.

20 Events after the reporting period

There have been no matters that have occurred subsequent to the reporting date, which have significantly affected, or may significantly affect, the Group's operations, results or state of affairs in future periods.

Directors' Declaration

In accordance with a resolution of the Directors of Seeing Machines Limited, I state that:

In the opinion of the Directors:

- (a) The financial statements and notes of Seeing Machines Limited for the six-month period ended 31 December 2022 present fairly, in all material aspects, the consolidated entity's financial position as at 31 December 2022 and of its performance for the six-month period ended on that date, in accordance with the Australian Accounting Standards.
- (b) There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

On behalf of the Board

Paul McGlone

Executive Director & Chief Executive Officer
