

Aberdeen Standard SICAV I - Asian Smaller Companies Fund

This is a marketing communication. Please refer to the Prospectus of the UCITS/Information document and the KIID before making any final investment decisions.

X Acc GBP

31 May 2022

Objective

The Fund aims to achieve a combination of growth and income by investing in smaller capitalisation companies in Asia Pacific countries (excluding Japan), which adhere to the abrdn Promoting ESG Equity Investment Approach.

The Fund aims to outperform the MSCI AC Asia Pacific ex Japan Small Cap Index (USD) benchmark before charges.

Portfolio securities

- The Fund invests at least 70% of its assets in smaller capitalisation equities and equity related securities of companies listed, incorporated or domiciled in Asia Pacific countries (excluding Japan) or having significant operations and/or exposure to Asia Pacific countries (excluding Japan).
- The Fund may invest up to 30% of its net assets in Mainland China equity and equity-related securities, although only up to 20% may be invested directly through available QFI regime, the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme or by any other available means.
- For the purpose of this Fund, smaller capitalization companies are defined as companies with a market capitalisation, as at the date of investment, of under US\$5 billion.
- All equity and equity-related securities will follow abrdn's "Asian Smaller Companies Promoting ESG Equity Investment Approach".
- This approach utilises abrdn's equity investment process, which enables portfolio managers to qualitatively identify and avoid ESG laggards. To complement this research, the abrdn ESG House Score is used to quantitatively identify and exclude those companies exposed to the highest ESG risks. Additionally, abrdn apply a set of company exclusions which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal. More detail on this overall process is captured within abrdn's Promoting ESG Equity Investment Approach, which is published at www.abrdn.com under "Sustainable Investing".
- Financial derivative instruments, money-market instruments and cash may not adhere to this approach.

Performance

Cumulative and annualised performance

	1 month	6 months	Year to date	1 year	3 years (p.a.)	5 years (p.a.)	10 years (p.a.)

Performance Data: Share Class X Acc GBP

Benchmark history: Benchmark – MSCI AC Asia Pacific ex Japan Small Cap Index (GBP)

Source: Lipper. Basis: Total Return, NAV to NAV, net of annual charges, gross Income reinvested, (GBP).

Costs may increase or decrease as a result of currency and exchange rate fluctuations. This may impact what you might get back. "Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the Benchmark / Benchmark / portfolio constraining benchmark. All return data includes investment management fees, operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower. Performance and benchmark returns are shown in the currency of the share class which may differ from the base currency of the Fund.

Past performance does not predict future returns.

Risk and reward profile

This indicator reflects the volatility of the fund's share price over the last five years. See Key Investor Information Document (KIID) for details.

Key risks

- The value of investments and the income from them can fall and investors may get back less than the amount invested.
- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.

Management process

- The Fund is actively managed.
- Through the application of the Promoting ESG Equity Investment Approach, the Fund targets a meaningfully lower carbon intensity than the benchmark.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Figures may not always sum to 100 due to rounding.

- (d) The shares of small and mid-cap companies may be less liquid and more volatile than those of larger companies.
- (e) The fund may invest in companies with Variable Interest Entity (VIE) structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the legal and regulatory framework.
- (f) Investing in China A shares involves special considerations and risks, including greater price volatility, a less developed regulatory and legal framework, exchange rate risk/controls, settlement, tax, quota, liquidity and regulatory risks.
- (g) Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the funds benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.
- (h) The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

Derivative usage

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

A summary of investor rights can be found in English on our website - www.abrdn.com/corporate/legal. To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents available in the local language, and Prospectus available in English, which are available on our website www.abrdn.com. The Prospectus also contains a glossary of key terms used in this document. The Fund Management company may terminate arrangements for marketing the fund under the Cross-border Distribution Directive denotification process.

This Fund concerns the acquisition of units or shares in a fund, and not in a given underlying asset such as a building or shares of a company.

¹The Historic Yield as at 30/04/2022 reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

²These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.

³The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 1.15% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.

The fund is a Luxembourg-domiciled UCITS fund, incorporated as a Société Anonyme and organized as a Société d'Investissement à Capital Variable (a "SICAV"). In Spain Aberdeen Standard SICAV I has been registered with the Comisión Nacional del Mercado de Valores under the number 1941.

The fund has been authorised for public sale in certain jurisdictions and private placement exemptions may be available in others. It is not intended for distribution or use by any person or entity that is a citizen or resident of or located in any jurisdiction where such distribution, publication or use would be prohibited.

The information contained in this marketing document is intended to be of general interest only and should not be considered as an offer, investment recommendation or solicitation to deal in the shares of any securities or financial instruments. Subscriptions for shares in the fund may only be made on the basis of the latest prospectus, relevant Key Investor Information Document (KIID) and, in the case of UK investors, the Supplementary Information (SID) for the fund which provides additional information as well as the risks of investing.
