### Bloomberg ex-Agriculture & Livestock 15/30 Capped 3 Month Forward Index

The Bloomberg ex-Agriculture & Livestock 15/30 Capped 3 Month Forward Index aims to reflect the performance of the following market:

- Diversified basket of commodities from 3 broad commodity sectors
  - Covers over 10 different commodities drawn from the Energy, Precious Metals and Industrial Metals sectors, excluding the Softs, Livestock and Grains sectors
  - Commodities are weighted according to their liquidity and economic significance, as determined annually by Bloomberg. The Index is a 3 Month Forward index, meaning the index includes commodity futures that have expiry dates 3 months further into the future than the commodity futures featured in the Bloomberg Commodity Index. The Index features capping with an aim to ensure UCITS compliance, and excludes futures linked to livestock and agriculture.
  - 2021 target weights were: Energy: 45%, Industrial Metals: 31.3%, Precious Metals: 23.7%
- Additional information on the index, selection and weighting methodology is available at [www.bloomberg.com](http://www.bloomberg.com)

### Key Risks

- The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.
- The Fund provides exposure to commodities. Commodity prices react, among other things, to economic factors such as changing supply and demand relationships, weather conditions and other natural events, the agricultural, trade, fiscal, monetary, and other policies of governments and other unforeseeable events all of which may affect your investment.
- The Fund will use financial contracts (known as derivatives) to try to reduce the effect of currency fluctuations between the currency of its assets and the currency of the shares. This may not be effective and may prevent the Fund from benefitting from an increase in value of (or expose a Fund to the decrease in value of) a particular currency.
- The Fund will enter into a derivative with a counterparty. If the counterparty fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.
