

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Europe ex UK Sustainable and Responsible Investment Equity Fund, a Euro denominated sub fund of the Aberdeen Standard SICAV I, A Acc GBP Shares (ISIN: LU0231460451). This fund is managed by Aberdeen Standard Investments Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The Fund aims to achieve a combination of growth and income by investing in companies listed on stock markets across Europe (excluding the UK), which follow the Investment Manager's Sustainable and Responsible Investment Equity Approach.

The Fund aims to outperform the FTSE World Europe ex UK Index (EUR) benchmark before charges.

Investment Policy Portfolio Securities

- The Fund invests at least 90% of the Fund's assets in equities and equity related securities of companies based, or carrying out much of their business, in Europe (excluding UK).

- All equity and equity related securities will be consistent with Sustainable and Responsible Investment Equity Approach.

- In addition we apply a set of company exclusion which are related to the UN Global Compact, Tobacco Manufacturing, Norges Bank Investment Management (NBIM), Thermal Coal, Gambling, Oil & Gas and Weapons.

- Details of our Sustainable and Responsible Investment Equity Approach is published at www.abrdn.com under Sustainable Investing.

- Financial derivative instruments are exempt from approach.

Management Process

- The Fund is actively managed.

- The Sustainable and Responsible Investment Equity Approach applies our equity investment process, where companies we invest in are given an overall quality rating and a component of this is the ESG quality rating which enables portfolio managers to identify sustainable leaders and improvers. We also use our abrdn ESG House Score to identify and

exclude companies exposed to the highest ESG risks within high and medium risk sectors.

- Engagement with company management teams is a part of our investment process and ongoing stewardship programme. Our process evaluates the ownership structures, governance and management quality of the companies.

- The Fund will target a lower carbon footprint compared to the benchmark as measured by the abrdn Carbon Footprint tool.

- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints and does not have any sustainability specific factors.

- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components and their weightings in the benchmark.

- Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark over the longer term.

Derivatives and Techniques

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the investment in equity and equity related securities is maintained.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 5 because of the extent to which the following risk factors apply:

- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the fund's benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.
- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

Where the share class is described as "hedged", currency hedging techniques are used which will reduce, but not eliminate, exchange rate risk. In particular, the currency being hedged is not necessarily related to the currencies within the fund. Such techniques also give rise to additional risks and costs.

CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing charges	1.69%
-----------------	-------

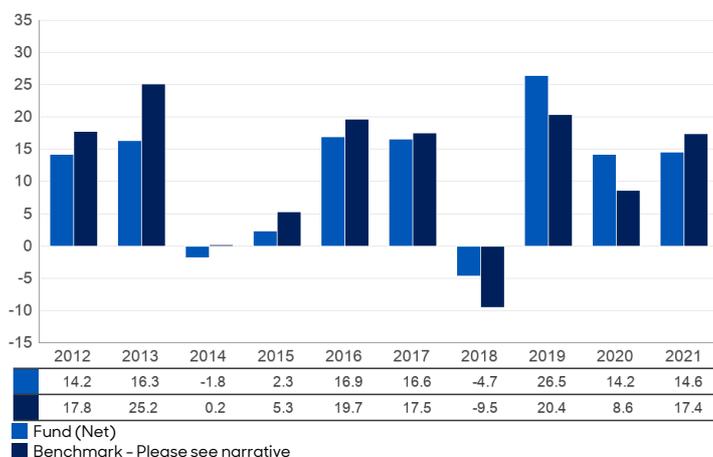

Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

PAST PERFORMANCE

Europe ex UK Sustainable and Responsible Investment Equity Fund, A Acc GBP Shares, 31 December 2021

% Returns

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser. The ongoing charges figure is at 30/09/2021. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking. A switching charge may be applied in accordance with the Prospectus. For more information about charges, please see the Prospectus which is available at www.abrdn.com.

Past performance is not a guide to future performance. Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section. Performance is calculated in GBP. The fund was launched in 1992. The share/unit class was launched in 2006. Benchmark – FTSE World Europe ex UK Index (GBP). The Fund launched on 28/03/2006 in AS SICAV I by the conversion of Aberdeen International European Opportunities Fund that launched on 27/04/1992.
