

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Global Equity Income Fund

a sub-fund of Aegon Asset Management Investment Company (Ireland) plc

Sterling Class C - Income shares (ISIN: IE00BF5SW304)

This fund is managed by Aegon Investment Management B.V.

Objectives and investment policy

Objective: is to provide income and capital growth over the longer term by investing in the global equities market. The Fund will aim to deliver a yield higher than that generally available from investment in global equities.

Policy: The Fund shall directly invest at least 80% of the Net Asset Value of the Fund in equity securities. The Investment Manager in seeking to achieve the Fund's investment objective, intends to invest primarily in a portfolio of global equity securities providing an above average yield (i.e. a higher yield than the yield of the overall global equity market). The Fund may also invest to a limited extent, in other securities and instruments as described below. In selecting investments, the Investment Manager shall seek to invest in equity securities that have the potential for growth of income and capital and the Investment Manager shall seek to identify companies with attractive long-term business prospects that generate cash and produce attractive levels of dividend income. The Fund shall invest in a diversified portfolio of equity securities.

The Investment Manager may invest the Fund's assets in securities of companies across a broad range of industries and sectors, with a wide range of market capitalisations and in companies domiciled throughout the world. The Fund is not constrained by any index weightings and will not concentrate on any particular sector or geographic location, however it is intended that, under normal market conditions, the majority of the Fund's investments will be concentrated in liquid shares of companies with a market capitalisation in excess of £1 billion.

The Fund may also hold ancillary liquid assets such as cash, cash investments, bank deposits, short term certificates or high quality short-term money market instruments including, but not limited to, commercial paper and treasury bills but the Investment Manager would not expect to hold substantial amounts of assets in these forms except if such investments were considered to be in the best interests of the Shareholders in the Fund. The Fund may invest up to 10% of the Fund's Net Asset Value in other open-ended collective investment schemes. The Fund may use financial indices, such as FTSE 100 and the S&P 500, for efficient portfolio management purposes which is further described in Specific FDI, Futures and Options. The Fund's use of underlying indexes will be in accordance with the Central Bank UCITS Regulations.

Although it is the intention of the Investment Manager to invest primarily in equity securities, in circumstances where the Investment Manager is unable to identify suitable equity investments, the Fund may invest up to 20% of its assets in preferred stocks, convertible securities, rights, warrants, American Depositary Receipts, Global Depositary Receipts and fixed income securities such as corporate,

convertible and government bonds or notes (which may be fixed or floating rate and shall primarily be investment grade (although may include non-investment grade to a limited extent)).

Comparator Benchmarks:

MSCI AC World Index TR GBP. Comparison against this index will allow investors to compare the income yield of the Fund (i.e. income as a percentage of value) against that of a representative but not identical universe of the Fund's potential investments. Comparison against this index will also allow investors to judge the active nature of the Fund against performance of an index which could reflect the performance of equivalent passive funds. Investors should be aware that a comparison of the yield of the Fund (income as a percentage of value) against the yield of this index will not necessarily be representative of the total performance (income and capital) of the Fund as against the index.

MSCI AC World High Yield Dividend Yield TR GBP Index. Comparison against this index will allow investors to compare the Fund's performance against that of a representative but not identical universe of the Fund's potential investments. Comparison against this index will also allow investors to judge the active nature of the Fund against performance of an index which could reflect the performance of equivalent passive funds with a high dividend yield orientation.

Lipper Global Equity Global Income Peer Group. Comparison of the Fund against this Peer Group will give investors an indication of how the Fund is performing compared with Funds investing in a similar but not identical investment universe and income orientation. The composition of this peer group is maintained externally and the investment manager makes no guarantees to its accuracy.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Key Information for Buying and Selling' in the Fund Supplement to the Prospectus for more information).

Note: the currency of this share class is different from the base currency of the Fund. Changes in the exchange rate between the share class currency and the currency of the Fund may impact the value of your investment.

Income the Fund receives will be paid out every six months.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

1	2	3	4	5	6	7
Lower risk / potentially lower rewards					Higher risk / potentially higher rewards	

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because global share prices can change quickly and unpredictably, for example due to political or economic events.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Liquidity: The Fund's value may fall if shares, especially those of smaller companies and companies in emerging markets, become more difficult to trade or value due to market conditions or lack of supply and demand.

Other markets: The Fund may invest in countries which have less developed political, economic and legal systems and which provide fewer investor protections. Difficulties in buying, selling, safekeeping or valuing investments in such countries may reduce the value of the Fund.

Concentration Risk: Holding a limited number of underlying investments means a change in the value of any one investment has more impact on the Fund's value. This increases potential gain but also potential loss.

Foreign Exchange Risk: The Fund's portfolio of investments may be denominated in a range of currencies which differ from the Fund's base currency. Fluctuations in these currencies may increase the risk of losses to the Fund where hedging is not used or is incomplete or unsuccessful.

Fund charges: The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

Full details of risks are disclosed in the 'Risk Factors' section of the Fund Supplement to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.64%
Charges taken from the fund under certain specific conditions	
Performance fee	None

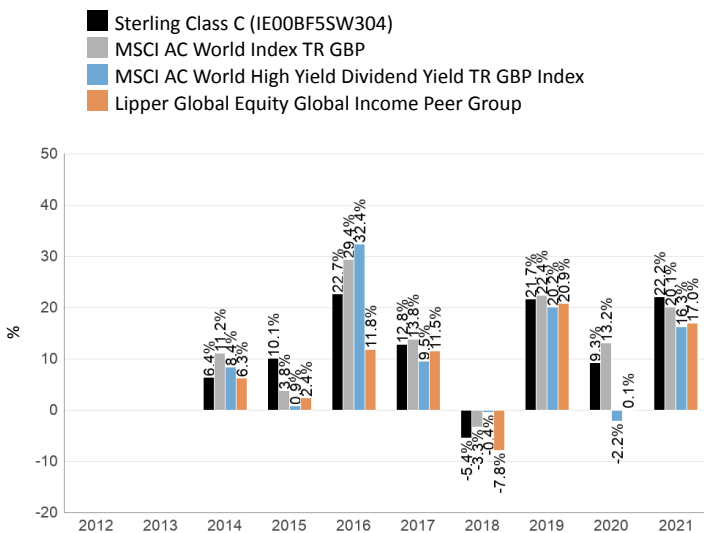

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2021. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Exchanging your holdings into another sub-fund of the Company: the first five exchanges in a calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Fund Supplement to the Prospectus.

Past performance

Past performance is not a guide to future performance.

Fund launch date: 28 September 2012

Share class launch date: 30 September 2013

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.
