

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

BMO UK Smaller Companies Fund

Share Class: 2 Acc, a Fund of BMO Investment Funds (UK) ICVC II (ISIN GB0005843882). This Fund is managed by BMO Fund Management Ltd.

Objectives and investment policy

The Fund aims to achieve medium to long-term capital growth with some income.

The Fund invests primarily in equities (ordinary shares in companies) of smaller UK companies. A UK company is one from any economic sector that may be listed, quoted or traded in the UK or elsewhere but which is incorporated, domiciled or conducts a significant portion of its business in the UK.

A smaller company is defined by the investment manager for the Fund as a company within the bottom 10 per cent of the total market capitalisation of all publicly listed equity in the UK. The Fund may invest in any industry sector.

From time to time at the investment manager's discretion, the Fund may also obtain an indirect exposure to these equities by investing in other collective investment schemes. To the extent that the Fund is not fully invested in equities of small UK companies or collective investment schemes, the Fund may also invest in other transferable securities, money market instruments, warrants, cash and near cash.

The Fund may use derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying assets) for the purposes of efficient portfolio management only.

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the Numis Smaller Companies (-InvTrust) TR index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Any income earned by this share class will be reinvested back into the share class to help boost the value of a share.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk

Typically higher rewards, higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.97%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 30/04/2021

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.bmogam.com.

Past performance

Source: FE fundinfo 2021

You should be aware that past performance is not a guide to future performance.

Fund launch date: 04/02/1988.

Share/unit class launch date: 30/05/2000.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.
