Volare Growth Fund, a sub-fund of Volare UCITS Portfolios

Class A Accumulation Shares (GBP) (ISIN GB00BYQ4HP77)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

The Fund aims to achieve capital growth (the increase in value of investments) whilst operating within a volatility range (variance) of between 8% and 13% over rolling 5 year periods.

- The Fund's primary objective is to control volatility (variance) and this could therefore be at the expense of performance. There can be no guarantee that the Fund will achieve its objective of managing volatility (variance).

Policy:

- The Fund will aim to achieve its objective through investment in a variety of asset classes across multiple geographic areas and markets, including:

- Between 0% and 85% in shares in companies, Real Estate Investment Trusts (REITs), Exchange Traded Funds (ETFs) and Exchange Traded Commodities (ETCs).

- Between 0% and 40% in cash, near cash, bonds and money market instruments.

- The Fund will aim to have at least 80% of its exposure to these asset classes indirectly by holding units in collective investment schemes which invest in these assets.

- The Fund will be managed in a manner that maintains eligibility for ISAs.

- The Fund may hold certain financial contracts known as derivatives (which are investments whose value is linked to another investment, or the performance of a stock exchange or to some other variable factor, such as interest rates) for efficient portfolio management purposes. Efficient portfolio management is where the Fund is managed in a way that is designed to reduce risk or cost and/or generate extra

income or growth. It is not intended that the use of derivatives in this way will change the risk profile of the Fund. On giving Shareholders 60 days' notice, the Funds will be able to also use derivatives for investment purposes.

Benchmark:

The Fund uses the Investment Association's (IA) 'Mixed Investment 40-85% Shares' Sector for performance comparison purposes only 'Performance Comparator'.

The Performance Comparator was chosen because the IA Mixed Investment 40-85% Shares Sector provides an appropriate comparison of the performance of the Fund in terms of a wider group of available similar funds.

The Performance Comparator is used to compare the Fund's rank or quartile as compared to the performance of other funds in the IA Mixed Investment 40-85% Shares Sector over a variety of time frames.

Other information:

- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.

- If you hold accumulation shares income from investments in the Fund will be rolled up into the value of your shares.

- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean 'risk free'.

The Class A Shares above appear as a '5' on the scale. This is partly because the Fund invests in a mixture of investments, many of which have values that may fluctuate widely.

The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- Counterparty Risk - The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.

- Liquidity Risk - Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.

- Interest Rate Risk - Interest rate movements affect the value of bonds. Bonds with a longer maturity period are more sensitive to changes in interest rates.

- Exchange Rate Risk - Fluctuations in exchange rates may cause the value of your investment to rise or fall.

- Investing in other collective investment schemes - The Fund will invest in other regulated collective investment schemes. As an investor of another collective investment scheme, the Fund will bear, along with the other investors, its portion of the expenses of the other collective investment scheme, including management, performance and/or other fees. These fees will be in addition to the management fees and other expenses which a Fund bears directly with its own operations.

- Exchange Traded Funds - The Fund may invest in exchangetraded funds which represent a basket of securities that are traded on an exchange and not necessarily traded at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.

For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited – LGT Vestra, PO Box 12391, Chelmsford CM99 2EU or, during normal business hours on 01268 44 5772.
