

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS Church House Investment Grade Fixed Interest Fund Income Units [ISIN: GB0004743828] Accumulation Units [ISIN: GB00B11DPK96]

The Authorised Fund Manager of the Fund is Smith & Williamson Fund Administration Limited trading as St Vincent St Fund Administration, part of the Smith & Williamson group.

Objectives and investment policy

The Fund aims to provide quarterly income, while maintaining capital over the long term (at least five years).

The Fund will invest at least 90% directly in shares of Sterling denominated investment grade corporate bonds (including floating rate notes) and UK Government Gilts and fixed interest securities issued by supranational organisations. In the Manager's view, these investments are consistent with a low volatility level. The volatility level of the Trust is expected not to exceed 5% over rolling three-year periods in normal market conditions.

Investment grade securities are those rated at least BBB- (or equivalent) by a single rating agency at the time of purchase. For bonds which are not rated by an independent ratings agency the investment manager will apply a comparable quality rating to determine whether a corporate bond should be classified as investment grade.

The Fund will aim to maintain a minimum asset allocation of 25% to AAA bonds in normal market conditions.

The Fund may also invest up to 10% in other assets, including:

- higher income securities, such as preference shares and infrastructure funds
- interest-bearing securities such as treasury bills
- money market instruments and cash.

The Fund may also seek to hedge the interest rate or credit risk in the portfolio through the use of derivative instruments.

The Fund may use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

Accumulation Units: Any income the Fund generates will be reinvested.

Income Units: Any income the Fund generates will be paid out to you.

You can buy and sell units on any working day in London.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a medium category because the price of its investments have risen or fallen to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- For full details on risk factors for this Fund, please refer to the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.84%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- Previously, the Ongoing Charges Figure (OCF) included expenses incurred by underlying holdings of collective investment schemes in relation to the Fund (the synthetic OCF). Following guidance issued by the Investment Association on 2 July 2020, the synthetic OCF calculation has been expanded to include investment trusts.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- The ongoing charges figure is for the year ending 31/03/2022.
- For further information about charges, please refer to relevant sections in the Fund's prospectus.

Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 11/12/2000.
- Share/unit class launch date: 11/12/2000.
- Performance is calculated in GBP.
- All charges and fees, except any entry, exit or switching charges, have been included within the performance calculation.
