

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Baillie Gifford Diversified Growth Fund - Class B2 Shares

Accumulation Shares - ISIN GB00BYQCYV62

This Fund is a sub-fund of Baillie Gifford Investment Funds ICVC which is an Investment Company with Variable Capital. Baillie Gifford & Co Limited is the Authorised Corporate Director of the Fund and is wholly owned by Baillie Gifford & Co.

Objectives and investment policy

Objective

- The Fund aims to achieve (after deduction of costs): an annualised return over rolling five-year periods that is at least 3.5% more than UK Base Rate; a positive return over rolling three-year periods; and annualised volatility of returns over rolling five-year periods that is below 10%.
- There is no guarantee that a positive return will be achieved over rolling three-year periods, or any time period, and capital may be at risk.

Policy

- The Fund will invest in a wide range of asset classes in any country or sector.
- At any one time, the Fund may be invested in any one or more of the following: shares, bonds, money market instruments, deposits and cash. This exposure may be achieved directly or indirectly through collective investment schemes.
- The Fund may also invest indirectly in property, infrastructure, commodities, private equity, loans and insurance-linked securities.
- Currency forwards and derivatives, which are types of financial contracts, are used for both investment purposes and in the management of risk. The Fund will be exposed to foreign currencies. The Fund will be actively managed.

Other Information

- Bonds are a type of investment which can be issued by governments, companies and other organisations when they want to borrow money. The issuer of the bond owes the holder a debt. The issuer is obliged to pay interest and/or repay the debt at a later date.
- Derivatives may be used to obtain, increase or reduce exposure to assets and may result in the Fund being leveraged. This may result in greater movements (down or up) in the price of shares in the Fund. It is not our intention that the use of derivatives will significantly alter the overall risk profile of the Fund.
- You can sell some or all of your shares on any business day in the United Kingdom by contacting our Dealing Department by phone or post. Where properly completed documentation is received by post, shares will be sold at the next valuation point following receipt of the instruction.
- Income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares. You are, however, deemed to have received the income for tax purposes.
- Where possible, charges are taken from the Fund's revenue. Where there is insufficient revenue, the remainder will be taken from capital.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases. The Fund is classified in the category above because it invests in a variety of asset classes, including shares in companies, bonds, property, infrastructure, commodities, and currencies, which generally provide higher rewards and higher risks than other investments such as investment solely in bonds or cash. The indicator does not take into account the following relevant material risks which may affect the Fund and mean you may not get back the amount you invested:
 - The Fund does not guarantee positive returns. It aims to limit the extent of loss in any short term period to a lower level than shares. Markets can go down and up and conditions can change rapidly. The value of an investment in the Fund, and any income from it, can fall as well as rise.
 - Changes in exchange rates of foreign currencies will cause investments, and income, to fall as well as rise. The Fund invests in emerging markets where difficulties in trading and custody of assets could arise, impacting your investment.
 - Bonds may be affected by changes in interest rates, expectations of inflation and a decline in the creditworthiness of the bond issuer. Issuers of bonds, particularly in emerging markets, may not be able to pay the promised income or could fail to repay the capital amount. Part of the Fund is invested in bonds that are exposed to the risk of extreme insurance losses from natural disasters such as earthquakes or hurricanes. If a number of specified disasters occur while the Fund is invested in such bonds, the Fund will suffer a capital loss.
 - In certain circumstances it can be difficult to buy or sell the Fund's holdings and even small purchases or sales can cause their prices to move significantly. Market values for illiquid securities which are difficult to trade, or value less frequently than the Fund, such as holdings in weekly or monthly dealt funds, may not be readily available. There can be no assurance that any value assigned to them will reflect the price the Fund might receive upon their sale.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.66%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is for Accumulation shares and has been estimated because the share/unit class has a new management fee and has insufficient track record for us to calculate it exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- Portfolio transaction costs, which are not included in the calculation of the ongoing charges figure but are incurred by the Fund when buying or selling investments, may have an impact on performance and are paid from the assets of the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- You can find further details about the charges in Part 5 of the Prospectus.

Past performance

	2017	2018	2019	2020	2021
Fund	7.0	-5.2	12.5	2.0	9.2
Benchmark 1*	0.3	0.6	0.7	0.2	0.1
Benchmark 2*	3.8	4.1	4.3	3.7	3.6

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 22/12/2008.
- Share/unit class launch date: 05/01/2016.
- Performance is calculated in GBP.
- Performance reflects the annual charge but excludes any initial charge paid.
- Performance figures are to 31 December each year.
- * Benchmark 1 - Bank Of England Base Rate
- * Benchmark 2 - Bank Of England Base Rate + 3.5%

Practical information

- The Fund's Depository is NatWest Trustee & Depository Services Limited.
- This document describes only one share class and other share classes are available. Further information on the Fund, the Prospectus and the latest annual and interim reports are available from Baillie Gifford or by visiting the website at www.bailliegifford.com. The remuneration policy, which includes details of (a) how remuneration and benefits are calculated and (b) the committee responsible for approving all remuneration policies within the firm, is also at the website address noted. All such documents are available in English, on paper and are free of charge on request.
- This Non-UCITS retail scheme Key Investor Information Document describes the Baillie Gifford Diversified Growth Fund only. The Prospectus and the annual and interim reports and accounts are prepared for the whole ICVC.
- The Baillie Gifford Diversified Growth Fund is a sub-fund of Baillie Gifford Investment Funds ICVC. The assets of the Fund are segregated from other sub-funds in the ICVC. This means that the assets of one sub-fund should not be used to meet the liabilities of another sub-fund.
- You can also find the Fund's latest share prices on our website at www.bailliegifford.com.
- Tax laws in the United Kingdom may have an impact on your own tax position.
- You may at any time switch all or some of your shares in the Fund for shares in any fund of any of the Baillie Gifford ICVC(s).
- To contact us please call Client Relations on 0800 917 2113 (fax 0131 275 3955) or email us at trustenquiries@bailliegifford.com.
- Your call may be recorded for training or monitoring purposes.
