

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**ASI AAA Bond Fund, a Sterling denominated sub fund of the Aberdeen Standard OEIC II, Retail Inc Shares (ISIN: GB0006573108). This fund is managed by Aberdeen Standard Fund Managers Limited.**

## OBJECTIVES AND INVESTMENT POLICY

### Investment Objective

To generate income and some growth over the long term (5 years or more) by investing in Sterling-denominated bonds with a high degree of creditworthiness.

**Performance Target:** To achieve the return of the Markit iBoxx Sterling Non Gilts AAA plus 0.65% per annum over rolling three year periods (before charges). The Performance Target is the level of performance that the management team hopes to achieve for the fund. There is however no certainty or promise that they will achieve the Performance Target.

The ACD believes this is an appropriate target for the fund based on the investment policy of the fund and the constituents of the index.

### Investment Policy

#### Portfolio Securities

- The fund will invest at least 60% in Sterling denominated bonds, such as government and corporate bonds (including asset backed and mortgage backed).

- The fund may invest in bonds issued anywhere in the world by governments and corporations, such as sub-sovereigns, inflation-linked, convertible, asset backed and mortgage backed bonds. The fund will employ techniques to reduce (hedge) risk related to currency movements on non-Sterling bonds.

- At the point of investment, bonds shall have a credit rating of 'AAA-' or higher from at least one major rating agency such as Standard & Poor's, Moody's or Fitch, with the exception of any UK Government bond held by the fund (up to a 20% limit).

- The fund may also invest in other funds (including those managed by abrdn) and money-market instruments, and cash.

#### Management Process

- The management team use their discretion (active management) to identify bonds and derivatives based on analysis of global economic and market conditions (for example, interest rates and inflation) and analysis of a company's prospects and creditworthiness compared to that of the market.

- In seeking to achieve the Performance Target, the Markit iBoxx Sterling Non Gilts (AAA) is used as a reference point for portfolio construction and as a basis for setting risk constraints. The expected variation

('tracking error') between the returns of the fund and the index is not ordinarily expected to exceed 3%. Due to the Fund's risk constraints, the intention is that the Fund's performance profile will not deviate significantly from that of the Markit iBoxx Sterling Non Gilts (AAA) over the long term.

Please note: The Fund's ability to buy and sell bonds and the associated costs can be affected during periods of market stress which could include periods where interest rates move sharply.

#### Derivatives and Techniques

- The fund will routinely use derivatives to reduce risk, reduce cost and/or generate extra income or growth consistent with the risk profile of the fund (often referred to as 'Efficient Portfolio Management').

- Derivatives can be used to generate growth, consistent with the Fund's risk profile, if market prices are expected to rise ('long positions') or fall ('short positions'). These positions can be used in overseas markets.

- Derivatives include instruments used to manage expected changes in interest rates, inflation, currencies or creditworthiness of corporations or governments.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

## RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 3 because of the extent to which the following risk factors apply:

- The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.
- The fund price can go up or down daily for a variety of reasons including changes in interest rates, inflation expectations or the perceived credit quality of individual countries or securities.
- The fund invests in mortgage and asset-backed securities (which may include collateralised loan, debt or mortgage obligations (respectively CLOs, CDOs or CMOs)). These are subject to prepayment and extension risk and additional liquidity and default risk compared to other credit securities.
- The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as

up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

## CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	4.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the fund over a year

Ongoing charges	1.03%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser. The Ongoing Charges figure reflects the amount based on the expenses within the annual report for each financial year. This figure may vary from year to year. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking.

Where the Fund invests in an open-ended collective investment scheme which is operated or managed by the ACD/the Manager or an associate of the ACD/the Manager, no additional annual management charge will be incurred by the Fund on such an investment.

The annual report for each financial year will include detail on the exact charges made.

The Ongoing Charge figure is as at 28/02/2021.

A switching charge may be applied in accordance with the Prospectus. For more information about charges please see Prospectus.

Further information on the charges can be found in the Prospectus.

## PAST PERFORMANCE

ASI AAA Bond Fund, Retail Inc Shares, 31 December 2021

% Returns

Year	Fund (Net)	Performance Target
2012	6.6	8.7
2013	-3.3	-1.5
2014	9.5	11.7
2015	-1.4	1.6
2016	6.9	8.0
2017	1.3	2.6
2018	-1.2	0.7
2019	4.0	5.4
2020	4.3	5.7
2021	-4.0	-2.7

Fund (Net)

Performance Target – Please see narrative

Past performance is not a guide to future performance.

Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

Performance is calculated in GBP.

The fund was launched in 1999. The share/unit class was launched in 1999.

Performance Target – Markit iBoxx Sterling Non Gilts AAA (GBP) +0.65% from 01/01/2016. ICE BofA Sterling Non Gilts (AAA) (GBP) +0.65% from 01/01/2002 to 31/12/2015.

## PRACTICAL INFORMATION

Name of Depositary: Citibank UK Limited, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB.

Further information about Aberdeen Standard OEIC II (Prospectus, report & accounts) can be found at [www.abrdn.com](http://www.abrdn.com), where documents may be obtained free of charge.

Other practical information (e.g. where to find latest share prices) can be found in documents held at [www.abrdn.com](http://www.abrdn.com).

Details of the up to date remuneration policy which includes a description of how remuneration and benefits are calculated, the identities of the persons responsible for awarding remuneration and benefits and the composition of the remuneration committee, are available at [www.abrdn.com](http://www.abrdn.com) and a paper copy will be available free of charge upon request from Aberdeen Standard Fund Managers Limited. Prospective investors should consult their own professional advisers on the potential tax consequences of acquiring, holding or selling shares.

Aberdeen Standard Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Aberdeen Standard OEIC II.

Other share classes are available in the fund and further information about these can be found in the Aberdeen Standard OEIC II Prospectus. Aberdeen Standard OEIC II is an umbrella structure comprising a number of different sub funds, one of which is this fund.

This document is specific to the fund and share class stated at the beginning of this document. However, the Prospectus, annual and half-yearly reports are prepared for the entire umbrella.

The assets of a sub fund within the umbrella belong exclusively to that sub fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body including Aberdeen Standard OEIC II and any other sub fund. Any liability incurred on behalf of or attributable to any sub fund shall be discharged solely out of the assets of that sub fund.

Investors may switch their shares in the fund for shares in another sub fund within the Aberdeen Standard OEIC II. For further information please refer to the prospectus (section on 'Switching') which can be found at [www.abrdn.com](http://www.abrdn.com).
