<b>Manager</b>	<b>Bridge Fund Management Limited</b>
<b>Share Class</b>	Class I GBP Distribution Shares
<b>ISIN</b>	IE00BCDBX600

### Objectives and investment policy

#### Objectives

The objective of the Fund is to achieve both income and long term capital appreciation by investing in a globally diversified portfolio of convertible bonds and equivalents.

#### Investment policy

The Fund has a global focus and may invest in both developed and under-developed economies.

All investments in convertible bonds are in securities listed on recognised stock exchanges. A convertible bond can be converted into a predetermined amount of the company's equity at certain times during its life, usually at the discretion of the bondholder.

The Fund typically invests in convertible bonds rated B- or above by a recognised credit rating service, or in convertible bonds which have a comparable rating as determined by the Fund's manager.

The Fund may, at any one time, be significantly invested in financial derivatives (complex instruments based upon the value of underlying assets). The Fund may take synthetic long positions to achieve leverage (multiplying gains or losses). The Fund may also

take synthetic short positions to protect investors' capital when required.

Financial derivatives may also be used to manage the Fund's currency risks, or as an alternative to investing directly in securities where it is more cost-effective.

The Fund is actively managed and uses the Refinitiv Global Focus Convertible Bond Index (GBP) benchmark for performance comparison purposes and to calculate the performance fee.

Any income which the Fund generates may be paid out in the form of a quarterly dividend at the sole discretion of the Directors.

You may sell your shares on days which banks are normally open for business in Dublin and London.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years. This Fund is appropriate for investors with an informed or expert level of financial knowledge and understanding.

### Risk and reward profile

#### Why is this fund in category 4?

The risk category for this Fund is set at 4, which in accordance with the UCITS Regulations is based on the risk limit of the Fund.

#### In addition to the risk captured by the indicator, the overall fund value may be considerably affected by:

**Investment Risk** - the Fund invests in convertible bonds globally, and prices can rise or fall due to a number of factors affecting global markets.

**Derivative Risk** - certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations. Convertible bonds by their nature also contain embedded derivatives thus magnifying this risk.

**Currency Risk** - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.

**Emerging Markets Risk** - emerging market countries face more political, economic or structural challenges than developed countries. Investments in such countries may offer higher potential for gains or losses, and markets may be less liquid.

**Credit Risk** - there may be times where the issuer or guarantor of a bond cannot meet its payment obligations or have their credit rating downgraded, resulting in losses for the Fund.

#### What do these numbers mean?

The risk indicator was calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

## Charges

### One-off charges taken before or after you invest

Entry charge	Up to 5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charge	1.08%
----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	10.00% a year of any returns the Fund achieves above the benchmark for these fees, the Refinitiv Global Focus Convertible Bond Index (GBP). No performance fee was charged in 2021.
-----------------	---

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The **Ongoing Charge** figure is based on expenses for the 12 month period ending 31 December 2021. The Fund's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges by looking at the "**Fees and Expenses**" section of the Fund's prospectus, which is available at [www.polarcapital.co.uk](http://www.polarcapital.co.uk).

## Past performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the "**Charges**" section.

The performance of this class is calculated in British Pounds.

The Fund launched on 2 September 2013. This class started to issue shares on 2 September 2013.
