The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Responsible UK Equity Fund

a sub-fund of T. Rowe Price Funds OEIC
Class C Acc 9 (ISIN: GB00BM9GRT03)
Authorised Corporate Director: T. Rowe Price UK Limited

Objectives and Investment Policy

Objective To increase the value of its shares through both growth in the value of, and income from, its investments.

Portfolio securities The fund is actively managed and invests mainly in a diversified portfolio of shares of companies in the UK.

Through the application of a socially responsible screen (exclusion list), determined and maintained by the investment manager, specific companies whose business activities involve controversial weapons (cluster munitions, anti-personnel mines, incendiary, biological, chemical and nuclear weapons), tobacco production, coal production, assault-style weapons for civilian use, adult entertainment, and gambling, are excluded. Also excluded are companies that do not meet the investment manager's conduct based criteria, which typically means companies that have been involved in an extreme environmental, social, ethical or governance breach and the investment manager does not believe that they are taking adequate steps to remediate the issue. Further details investment manager's responsible investment guidelines can be found in the 'Exclusion List Policy', which is available upon request.

The fund invests at least 80% of total assets in shares and related securities issued by companies that are either incorporated or conduct most of their business in the UK. Types of securities may include common stocks, preferred stocks, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs). The fund may also invest up to 20% of its assets in debt and money market securities.

Investment process The investment manager's approach is to:

- Use fundamental research to identify and assess long-term investment opportunities, looking for companies with high returns on capital and capable of providing sustainable earnings across the market cycle.
- Apply a style-agnostic, focus on quality, avoiding style constraints and investing in quality companies while maintaining a balanced portfolio through market cycles (a minimum of five years).
- Use a disciplined approach to valuation, seeking to buy companies at a clear discount to their intrinsic value.
- Use a risk management approach assisted by diversification and quantitative analysis.

- First apply a socially responsible screen, and then assess environmental, social and governance ("ESG") factors for the remaining securities to identify those considered most likely to have a material impact on the performance of the holdings or potential holdings in the fund's portfolio. These ESG factors, which are incorporated into the investment process alongside financials, valuation, macroeconomics and other factors, are components of the investment decision. Consequently, ESG factors are not the sole driver of an investment decision but are instead one of several important inputs considered during investment analysis. Further information on the ESG investment policies can be found on www.troweprice.com/corporate/en/what-we-do/investing-approach/esg-investment-policy.html

Designed for Investors who typically plan to invest for five years or more.

Fund reference currency GBP

Benchmark FTSE All Shares Index Gross.

Benchmark Use Investors may use the benchmark to compare the fund's performance. The benchmark has been selected because it is similar to the investment universe used by the investment manager and therefore acts as an appropriate comparator. The investment manager is not constrained by any country, sector and/or individual security weightings relative to the benchmark and has complete freedom to invest in securities that do not form part of the benchmark.

Other Information:

Income generated by the fund is reinvested and included in the value of its shares.

The fund deducts expenses from capital. This may impact future capital growth and reduce the capital value of your investment. This may also have tax implications for investors, especially those for whom income and capital gains are subject to different treatment and personal tax rates.

Orders to buy, switch and redeem shares are ordinarily processed any day that is a full bank business day in England and Wales.

Orders received and accepted by 12:00 noon on a business day will generally be processed that day.

Risk and Reward Profile

Lower Risk ← Higher Risk
Typically Lower Rewards ← Typically Higher Rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The value of an investment in the fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the fund's share price over five years) but is not a reliable indicator of future risk reward profile.

The lowest category does not mean a risk-free investment.

The fund is in the category shown because it invests in a segment of the market where volatility is moderately high.

The fund's risk level reflects the following:

- As a class, stocks carry higher risks than money market securities and bonds.

MAIN RISKS TYPICALLY ASSOCIATED WITH ORDINARY MARKET CONDITIONS

ESG and RI Risk ESG and Responsible risk may result in a material negative impact on the value of an investment and performance of the fund.

Investment Fund involves certain risks an investor would not face if investing in markets directly.

MAIN RISKS TYPICALLY ASSOCIATED WITH UNUSUAL MARKET CONDITIONS

Unusual market conditions or large unpredictable events can amplify the fund's main risks. They can also trigger other risks, such as:

Operational risk may cause losses as a result of incidents caused by people, systems, and/or processes.

A more detailed description of the risks that apply to the fund is set out in the section "Risk Descriptions" in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.57%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your distributor or financial adviser.

The **ongoing charges** figure is based on expenses for the year ending 12/2021. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units/shares in another collective investment undertaking.

For more information about charges, please see the fund's prospectus, which is available at [troweprice.com](https://www.troweprice.com).

Past Performance

The fund and class started to issue shares in 2021.

When a share class is hedged to a different currency, a hedged version of the benchmark (where available) will be used by the Authorised Corporate Director for the performance comparison.
