Aims

The Fund aims to provide a return over the long term (5 years or more), by way of capital growth and income. The Fund is actively managed, and invests at least 80% of its assets in other funds. The Fund usually invests in other Threadneedle funds, however, funds managed by companies outside the Threadneedle group may also be held, when this is considered appropriate. These funds may invest worldwide. The Fund focuses on investment in funds providing exposure to equities (company shares), but also has some exposure to bonds (including corporate and government bonds). The balance of the exposure to these different asset types may vary over time, however, equity exposure is usually between 50-85% of the Fund's value, under normal market conditions. The Fund may also hold money market instruments, deposits, cash, and near cash. Derivatives may be used with the aim of reducing risk or managing the Fund more efficiently, and up to 20% of the value of the Fund may be invested in funds that use derivatives for investment purposes.
