01st September	31st October
01st June	31st July

Aims

To generate growth and income over the long term (5 years or more) by investing in infrastructure related equities (company shares). Performance Target: To achieve a return in excess of the S&P Global Infrastructure Net Total Return Index over a rolling five year period (after charges). There is no certainty or promise that the Performance Target will be achieved. The S&P Global Infrastructure Net Total Return Index (the "Index") is a representative index of the global infrastructure related stock market.

*A measure of portfolio concentration, e.g. where the fund coefficient is 25, this means the portfolio concentration is equivalent to holding 25 equally weighted stocks. This factsheet is for investment professionals only. It is for information purposes only and should not be viewed as a financial promotion. Source of performance data: Financial Express. Performance figures show total return with no initial charge and net income reinvested, except Offshore funds which show gross income reinvested. Cumulative performance figures are calculated from the previous working day. Discrete performance figures are calculated from the previous month end. Past performance is not an indication of future performance. The value of investments and any income from them is not guaranteed and can go down as well as up depending on market movements. All yields are variable and not guaranteed. Data accurate as of 30/04/2025.
