*A measure of portfolio concentration, e.g. where the fund coefficient is 25, this means the portfolio concentration is equivalent to holding 25 equally weighted stocks. This factsheet is for investment professionals only. It is for information purposes only and should not be viewed as a financial promotion. Source of performance data: Financial Express. Performance figures show total return with no initial charge and net income reinvested, except Offshore funds which show gross income reinvested. Cumulative performance figures are calculated from the previous working day. Discrete performance figures are calculated from the previous month end. Past performance is not an indication of future performance. The value of investments and any income from them is not guaranteed and can go down as well as up depending on market movements. All yields are variable and not guaranteed. Data accurate as of 31/05/2026.
