## GLOBAL INCOME FUND

KEY INVESTOR  
INFORMATION  
DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Global Income Fund is an Authorised Unit Trust and categorised as a UCITS scheme. This document is based upon the I Inc class (ISIN: GB00B56S8Y21). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

### Objective

- The Fund aims to deliver a high level of income with potential for capital growth over the long term (5 years or more).
- Income Target Benchmark: The Fund aims to deliver a net target yield of at least the net yield of the MSCI World Index each year

### Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest in companies globally.
- The Fund will typically invest 95% (minimum 80%) of its assets in equities or equity related derivatives but may also invest in collective investment schemes (up to 10% of Fund assets), corporate debt securities, other transferable securities, money market instruments, warrants, cash and deposits.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes. Please refer to the Derivatives sections in the prospectus for further details.

### Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### How to buy

- You may buy or sell units on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at [www.liontrust.co.uk](http://www.liontrust.co.uk).  
The Fund is dual priced; it has an offer (buying) price and a bid (selling) price and the difference between these (bid-offer spread) is dependent on the underlying holdings. This means investors buying and selling are compensating existing investors for any dilution in the fund's value caused by underlying transaction costs. For a fuller explanation, please visit [www.liontrust.co.uk](http://www.liontrust.co.uk).

### Investment process

- The philosophy is based on the mistakes people make when forecasting. The fund managers believe stock prices are frequently mispriced as they tend to reflect the often unreliable and, at times, completely misleading, forecasts of future profitability made by company managers.
- The fund managers find, in contrast, that historical analysis of company cash flows is a more reliable guide to future profitability and stock price valuation in the medium term.
- The Fund focuses on the historic cash flows generated and invested by companies to support their forecast profits growth. As forecasts are often unreliable, the scale of cash invested to support forecasts is key.
- The Fund seeks to own companies that generate significantly more cash than they need to sustain their planned growth, yet are lowly valued by investors on that measure.
- There is historical evidence that combining the Cashflow Solution process with a yield discipline is capable of generating strong returns. Companies generating significant cash flows are in a good position to pay generous and rising dividends to shareholders.
- To identify companies' annual cash flow, balance sheet development and valuation efficiently across all equity markets the fund managers have developed a simple screen as a starting point for further qualitative analysis. The investment screen consists of two cash flow ratios that are combined equally to highlight the process characteristics that they seek.
- The two cash flow measures are:
  - cash flow relative to operating assets; and
  - cash flow relative to market value.

## Risk and reward profile

obtained from Liontrust (address overleaf) or online at [www.liontrust.co.uk](http://www.liontrust.co.uk).

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology adopted by the Financial Conduct Authority. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 6 for its exposure to high yielding global companies.
- The SRRI may not fully take into account the following risks:
  - that a company may fail thus reducing its value within the Fund;
  - any company which has high overseas earnings may carry a higher currency risk;
  - any overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- The Fund may, under certain circumstances, make use of derivative instruments but it is not intended that their use will materially affect volatility.
- Counterparty risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
