## TM CRUX European Opportunities Fund - Class F

A sub Fund of the TM Investment Funds

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00BNY7YK59 ISIN (Income): GB00BNY7YJ45

### Objectives and Investment Policy

The objective of the Fund is to achieve capital growth. The Fund will seek to achieve returns that are 2% p.a. in excess of the FTSE World Europe ex-UK Index over a rolling three year period, though there is no guarantee that it will do so.

The portfolio will consist principally of listed equity securities, issued by companies established or operating in Europe (excluding the UK).

The Fund may also invest in other transferable securities, money market instruments, cash and near cash and derivatives. The Fund may invest in other collective investment schemes, but such investment will be limited to a maximum of 10% of the scheme property of the Fund.

Derivatives will be used only for the purpose of Efficient Portfolio Management.

CRUX Asset Management Limited intends to adopt a long-only strategy in its management of the Fund, and to adopt a Business Cycle Approach (details of which are set out in the section headed "Additional Information for Investors") in the prospectus.

The investment strategy applied in order to achieve the funds objective is to look for "opportunities" in the market to buy cyclical assets during depressed levels of economic activity and to buy defensive assets ahead of expected declines in economic activity.

The "opportunities" are as a result of advantageous circumstances or combination of circumstances, as found by the Managers of the Fund which offer an objective of 2% p.a. in excess of the Index return.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at midday.

### Risk and Reward Profile

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
